SPECIAL MEETING OF TOWN MEETING MEMBERS

Braintree, Massachusetts
November 28, 1972

Under the Provisions of Section 8, Chapter 17 of the Acts of 1937, a Special Meeting of the Town Meeting Members elected from Precinct 8 was held in the East Junior High School at 7:15 P.M., November 28, 1972. The Meeting was called to order by Robert N. Bruynell, Town Clerk, for the purpose of organizing temporarily, in order to determine by ballot the filling of one vacancy caused by the removal from the town of Whitney Withington.

H. Frederick Herget was nominated for Temporary Clerk.

There being no other nominations, and a vote being taken, H. Frederick Herget was unanimously chosen Temporary Clerk, and having been duly sworn, thereafter presided until the elction of a Temporary Chairman.

George F. Ramacorti was nominated Temporary Chairman, there being no other nominations, and a vote taken, George F. Ramacorti was unanimously chosen Temporary Chairman.

The only business to come before the Meeting was the election of one (1) Town Meeting Member to serve until the next Annual Town Election.

Tellers were appointed by the chair and ballots distributed. The Ballots being received and counted, it was declared by the chair that the following Town Meeting Member was elected.

Pursuant to a Warrant duly issued, the Special Town Meeting of the inhabitants of the Town of Braintree, represented by their duly elected and qualified Town Meeting Members, was held in the East Junior High School on Monday, January 31, 1972.

The meeting was called to order at 7:50 o'clock in the evening by the Moderator, Mr. Carl R. Johnson, Jr.

There were 182 Town Meeting Members present.

The Moderator declared a quorum present.

The assembly joined in the pledge of allegiance to the Flag of the United States.

Prayer for Divine Guidance was offered by Rev. Dr. M. James Workman, Pastor of the First Congregational Church.

The Town Meeting Members and citizens present stood for a moment of silent prayer in memory of the following Town Meeting Member who has passed away since the last Town Meeting: Edwin L. Emerson, Precinct 2.

The Town Meeting Members were administered the oath by the Town Clerk.

The following Tellers were appointed by the Moderator to serve during the course of the evening:

Philip S. Dexter, Jr.
John H. Rooney, Jr.
John W. Bernard
George F. Himmel

Charles A. Furness
Anthony J. Mollica
Charles F. Moore
Vito M. D'Acci

Mr. Duffee (3) presented the report of the Finance Committee.

We now continue with consideration of the Articles in the Warrant.

ARTICLE 1. Funding refuse contract.

Upon motion duly made by Mr. Duffee (3), it was

SO VOTED (8:08 P.M.): That there be raised and appropriated the sum of \$205,000.00 for the purpose of funding a contract between the Town of Braintree and South Shore Disposal Inc., 329 Rockland Street, Abington, for refuse collection services.

ARTICLE 2. Petition General Court for Water Department Pay Increases.

MOVED by Mr. Duffee (3):

That the town petition the General Court under the provisions of Section 8 of Article 89 of the amendments to the Constitution for an act to authorize the town to raise and appropriate a sum of money not to exceed \$6,300.00 for the purpose of compensating employees of the Water Department for pay increases which were brought about by collective bargaining during the year 1971.

Discussion ensued involving Mr. Duffee (3) and Mr. Browne (2).

Comes now the question on the motion by Mr. Duffee (3).

UNANIMOUSLY VOTED (8:13 P.M.).

ARTICLE 3. Establishing Municipal Building Insurance Fund.

TOWN OF BRAINTREE

ADJOURNED ANNUAL TOWN MEETING

MONDAY, MARCH 27, 1972

The Adjourned Annual Town Meeting was called to order at 7:52 o'clock in the evening of Monday, March 27, 1972, by the Moderator, Mr. Carl R. Johnson, Jr.

The assembly joined in the pledge of allegiance to the Flag of the United States.

Prayer for Divine Guidance was offered by Rev. Peter D. Allard, Assistant Minister of the Union Congregational Church of Weymouth and Braintree.

The Town Meeting Members were sworn by the Town Clerk.

The Moderator asked the Town Meeting Members to stand for a moment of silent prayer in memory of our late Town Meeting Member, William F. Welch.

There were 221 Town Meeting Members present.

The Moderator declared a quorum present.

The following Tellers were appointed by the Moderator to serve during the course of the evening:

Barbara A. Lyons
Thomas F. Cassidy
Bernard M. Collins

John H. Rooney, Jr.
John L. Mento, Jr.

ARTICLE 2.

Mr. Callahan gave the final report of the Archie T. Morrisson School Building Committee.

The final report of the Archie T. Morrisson School Building Committee asks that this report be accepted as follows, and the Committee be discharged.

A Committee of seven (7) was appointed by the Moderator under Article 2 at the Special Town Meeting on Thursday, November 4, 1965, to be known as the Elementary School Building Committee. Said Committee to prepare topographical surveys and test borings relative to the available sites, to study educational specifications, employ architects, prepare working plans and secure bids for the construction of a new Elementary School. Further that the sum of \$40,000.00 be transferred from available funds in the Treasury, said sum to be expended by this Elementary School Building Committee.

At the 35th meeting of the Elementary Building Committee on December 6, 1966, a contract was signed with the builder Sciaba & Company and construction started shortly thereafter. The School was put into use for the first time in September, 1968.

All obligations for materials and services have been met and we are pleased to advise of the following unexpended balance:

Total Appropriations	\$1,303,350.54
Actual Cost	<u>1,302,006.00</u>
Unexpended Balance	\$ 1,344.54

Feeling the project to be complete, we respectfully request that this Committee be discharged.

Respectfully submitted,
Arthur E. Stenberg, Chairman
Arthur G. Martell, Secretary
John D. Callahan
Laurie P. Cotton
Warren Davis
William P. Fitzgerald, Jr.
Walter E. Paul

Discussion ensued involving Mr. Arnold and Dr. Powell (4).

Mr. Duffee (3) moved that the report be placed on file with the Town Clerk and the Committee be discharged.

SO VOTED (8:16 P.M.)

ARTICLE 2.

Mrs. Stovold (7) moved the following resolution:

Whereas the Braintree High School Dramatic Club has recently received final place honors in the Regional Drama Festival, its actors having placed three winners in the all-star cast, and has brought to the High School a Paul Revere bowl; and

Whereas the Debating Society accounted for seven awards at the South Shore Debate League tournament, and its debaters won five individual trophies, more trophies than any other team on the South Shore,

Now, therefore, be it resolved that the Town Meeting salutes the Braintree High School Dramatics Club and its coach Patricia Ann McKay and the Braintree High School Debating Club and its coach M. Carlton Storms. A copy of this Resolve shall be sent to Miss McKay, to Mr. Storms, and to the Principal of Braintree High School and to the School Committee.

Be it resolved that it is the sense of the 1972 Braintree Annual Town Meeting, that the Braintree School Committee take whatever action is required to properly restore and maintain the present High School grounds on Washington Street, including the replacement of lawn, shrubbery, clinging ivy, and lantern-type lights which formerly were present on either side of the front steps of the school and require that no loitering or other activities be allowed on the school lawn and entrances that infringe upon the rights and sensibilities of all of our citizens.

Mr. Peck (5) spoke on the resolution.

Comes now the question on the resolution by Mr. L. Frazier (9).

SO VOTED (12:36 A.M.)

ARTICLE 2.

Upon motion duly made by Mr. Hollis (3), it was

UNANIMOUSLY VOTED (12:38 A.M.): We, the members of the 1972 Annual and Concurrent Town Meetings, assembled for the final sessions on Wednesday, March 29, 1972, express our deep appreciation and gratitude for the fine leadership, the high and enlightening level of debate, as well as the generally fine conduct of all concerned during the several sessions now closing, to:

Each of those members of our local clergy who offered the thought-provoking invocations, as each session began;
 Our Moderator, Carl R. Johnson, Jr.;
 Our Town Clerk, Robert N. Bruynell;
 Our Town Counsel, Dace J. Moore;
 Our Finance Committee Chairman, Malcolm T. Duffee, and his dedicated, tireless and most efficient Committee;
 Our Personnel Board Chairman, Theodore W. Browne, Jr., and his most efficient Board;

Our many appointed committees for the diligence, devotion, reporting, for their many sacrifices of time, effort and for the accomplishments evidenced by them, so that we, the Town Meeting Members, have been given a much clearer and greater understanding enabling us to arrive at more intelligent decisions for the benefit of ourselves and particularly for those whom we were elected to represent.

We are also grateful to the area News Media for their fine unbiased reporting of the several sessions of our meetings, namely:

Quincy Patriot Ledger;
 Radio Station WJDA of Quincy;
 Braintree Observer and Sunday Forum; and
 The Braintree Star.

Mr. Duffee gave his closing remarks.

Upon motion duly made it was

UNANIMOUSLY VOTED (12:42 A.M.): That the 1972 Annual Town Meeting be dissolved.

TOWN OF BRAINTREE

SPECIAL TOWN MEETING

WEDNESDAY, JUNE 7, 1972

Pursuant to a Warrant duly issued, the Special Town Meeting of the inhabitants of the Town of Braintree, represented by their duly elected and qualified Town Meeting Members, was held in the Town Hall on Wednesday, June 7, 1972.

The meeting was called to order at 7:58 o'clock in the evening by the Moderator, Mr. Carl R. Johnson, Jr.

The assembly joined in the pledge of allegiance to the Flag of the United States.

Prayer for Divine Guidance was offered by Rev. Donald W. Smith, Pastor of the South Congregational Church.

The Town Meeting Members and citizens present stood for a moment of silent prayer in memory of the following Town Meeting Member who has passed away since the last Town Meeting: Gilbert L. Bean, Precinct 5.

The Town Meeting Members were administered the oath by the Town Clerk.

There were 214 Town Meeting Members present.

The Moderator declared a quorum present.

The Moderator announced that a meeting of the duly elected Town Meeting Members from Precinct 6 was held, in accordance with the provisions of Section 8, Chapter 17, Acts of 1937, and Town Meeting Member elected to fill the vacancy, subject to the action of this meeting, as follows: Harvey G. Lyons, Jr.

Upon motion duly made by Mr. Halloran (3), it was

UNANIMOUSLY VOTED (8:05 P.M.): That this meeting does adjudge that Harvey G. Lyons, Jr. has been duly elected and is qualified to act as a member of this meeting until the next Town Election.

TOWN OF BRAINTREE
SPECIAL TOWN MEETINGS (2)

MONDAY, JULY 17, 1972

Pursuant to Warrants duly issued, the Special Town Meetings of the inhabitants of the Town of Braintree, represented by their duly elected and qualified Town Meeting Members, were held in the Town Hall on Monday, July 17, 1972.

The first meeting was called to order at 7:53 o'clock in the evening by the Moderator, Mr. Carl R. Johnson, Jr.

The assembly joined in the pledge of allegiance to the Flag of the United States.

Prayer for Divine Guidance was offered by Rev. Cornelius Heery, Curate, St. Thomas More Church.

The Town Meeting Members were administered the oath by the Town Clerk.

There were 180 Town Meeting Members present.

The following Tellers were appointed by the Moderator to serve during the course of the evening:

Howard R. Beaver
Dennis M. Corvi
Otis B. Oakman
Donald Armitage

Gerald J. Luke
James P. Lemonias
William H. Stovold
Raymond W. Whitman

The Moderator announced that meetings of the duly elected Town Meeting Members from Precincts 5 and 6 were held in accordance with the provisions of Section 8, Chapter 17, Acts of 1937 and Town Meeting Members elected to fill vacancies, subject to the action of this meeting as follows: Mary S. Bean, Precinct 5; and Charles Cruickshank, Precinct 6.

Upon motion duly made by Mr. Halloran (3), it was

UNANIMOUSLY VOTED (7:58 P.M.): That this meeting does adjudge that Mary S. Bean and Charles Cruickshank, have been duly elected and are qualified to act as members of this meeting until the next Town Election.

We now continue with consideration of the Articles in the Warrant.

The Town Meeting Members gave unanimous consent to allow Mrs. Stovold to read the following resolution.

It was Unanimously Adopted (8:08 P.M.): Whereas Mr. Hjelm with the Directors and Department Heads planned and coordinated the unprecedented move from the old high school to the new Braintree High School; and

Whereas the faculty of the new Braintree High School on their own time provided countless hours of physical labor and the use of their own cars; and

Whereas the students of Braintree High School willingly contributed their time and energy; and

Whereas a group of parents known as Friends of Braintree High School under the leadership of Mrs. Joseph Valle volunteered their time and private cars to move the libraries.

Now, therefore, be it resolved that the town meeting recognizes the efforts of school administrators, faculty, students and parents for their monumental service to the Town of Braintree. A copy of this resolve shall be sent to Mr. Alexander Parker, Chairman of the Brantree School Committee; the faculty of Braintree High School; Miss Julia Rinaldi, President of the Student Council; and Mrs. Joseph Valle, Chairman of Friends of Braintree High School.

ARTICLE 1. MEETING #1. Fund for revaluation

MOVED by Mr. Halloran (3):

That there be raised and appropriated or transferred from available funds the sum of \$100,000.00 to be expended by the Board of Assessors as partial payment for obtaining a revaluation of the Town, and that the Board of Assessors be and hereby is authorized to enter into a contract, as provided under Section 4 of Chapter 40 of the General Laws, until completion, for an expert appraisal of all taxable and tax exempt real property and locally taxable personal property. 100,000.00

Discussion ensued involving Mr. Halloran (3) and Mr. Santosuosso (1).

MOVED the following substitute motion by Mr. Santosuosso (1).

To see if the Town will vote to raise and appropriate or transfer from available funds the sum of \$60,000.00 for the purpose of authorizing the Board of Assessors to revalue all taxable and tax exempt real property and locally taxable personal property under Section 4 of Chap. 40 of the General Laws until completion. Said amount to be exclusive of their salaries.

Discussion ensued involving Mr. Santosuosso (1) and Mr. Cuff (2).

Mr. Santosuosso withdrew his substitute motion.

AN APPRECIATION

With the current thinking of values, where the tendency appears to be "every man for himself", it is most refreshing to experience the recent fine contribution to our Town of Braintree of one of our quiet and devoted citizens, GEORGE EARL ROSS of 375 Granite Street, owner of George E. Ross Architects, Inc. of Braintree.

Mr. Ross has resided in Braintree for approximately twenty-five years. His experience includes the designing of homes, many nursing homes, apartments, such as the three building complex at 1000 Southern Artery in Quincy, and the Waterview Apartment complex in Framingham. He is presently designing the new Sports Coliseum in Richfield, Ohio for the owner of the Cleveland Cavalier Basketball Team and the World Hockey Association Crusaders.

Mr. Ross voluntarily donated his expertise and assigned his staff member, Edward C. Small, for advice to the meetings of the Dog Leash Law Study Committee, by providing extensive, professional and proficient service in the preparation of drawings, blueprints, and specifications for the construction of an ANIMAL SHELTER, commonly referred to as a DOG POUND, in that he donated almost all of the monies for the construction and installation of stainless steel cages required for the new van truck purchased for the Dog Officer.

WE HEREBY RESOLVE, that in recognition of this service to the Town of Braintree, we, the Town Meeting Members assembled for the second session of the November 28, 1972 Special Town Meeting on this night of December 4, 1972, do hereby commend him and express our deep appreciation to GEORGE EARL ROSS for his good citizenship and for his singularly generous contribution to the town; and be it FURTHER RESOLVED, that this

appreciation be spread upon the records of the Town Meeting, and that a certified copy, duly framed, be presented to Mr. Ross by our Town Clerk.

Upon motion duly made by Mr. Carnes (9), it was

SO VOTED (10:14 P.M.): That Article 15 be taken from the table.

ARTICLE 15. Construct new dog pound

MOVED by Mr. Carnes (9):

That the Leash Law Study Committee moves that an animal shelter together with an attached garage be constructed and equipped on the Town owned land adjacent to the site of the present dog pound and for that purpose a sum of \$29,000.00 be transferred from available funds and that said sum be expended for said construction and equipping of said animal shelter under the direction of the Leash Law Study Committee.

Discussion ensued involving Mr. Dawes, Mr. Halloran (3), Mr. Harris (7), Mr. Ross, Mr. Himmel (9), Mr. Walsh (4), Mr. Wentzel, Mr. Carnes (9), Mr. Forsberg (9).

Comes now the question on the motion by Mr. Carnes (9).

The Moderator ordered a teller count. Vote and count were taken and there being 65 votes in the affirmative and 97 votes in the negative the Moderator declared the motion DEFEATED (10:47 P.M.).

Upon motion duly made by Mr. Halloran (3), it was

That the Selectmen be and hereby are authorized to petition the General Court under the provisions of Section 8 of Chapter 89 of the Amendments to the Constitution for the following act authorizing the Town of Braintree to establish a Department of Public Works:

SECTION 1. There shall be established in the Town of Braintree a department of public works, hereinafter called the department which shall be under the jurisdiction of the board of selectmen. The department shall have all of the powers and duties now vested in or exercised by any of the following departments which are hereby abolished, to wit: highway department, water department, sewer department, waste disposal department, engineering department, the maintenance and construction functions of the park and recreation department, tree and moth department, cemetery department, inspector of buildings, wire inspector and the sealer of weights and measures. The department shall also have jurisdiction over the operation, maintenance and repair of public buildings other than school buildings. It shall have such added powers with respect to public works as the town may from time to time provide by vote of the town, any other provisions of law to the contrary notwithstanding. No contracts, obligations or liabilities in force on the date when this act becomes fully effective shall be affected hereby, but the department shall in all respects be the lawful successor of the departments so abolished.

SECTION 2. The board of selectmen shall appoint a director of public works, whose qualifications, powers and duties shall be determined and prescribed by said board, and who shall be responsible to said board. The director shall have full authority for carrying out the policies of the board and over the operations of the department. The director shall appoint such staff of assistants and employees as he deems necessary, subject to available appropriations, and shall have the authority to remove them; such staff shall include a supervisor for each division of activity. The director shall be appointed for a term of three years, subject to removal by the board for cause. Said director shall not be subject to the civil service laws and rules.

SECTION 3. The director shall keep a full and complete record of the doings of his office, shall render to the board, as often as it may require, a full report of all operations under his control during the period reported upon, and annually and from time to time as required by the board shall make a synopsis of such reports for publication and shall keep the board fully advised as to the needs of the town within the scope of his duties, and shall annually, not less than forty-five days prior to the expiration of the fiscal year of said town, furnish to the board a carefully prepared and detailed estimate in writing of the appropriations required during the next succeeding fiscal year for the proper exercise and performance of all said rights and duties.

SECTION 4. All employees of the departments or offices set forth in section one of this act shall, immediately upon the effective date of this act in the

manner hereinafter provided, be transferred to the said department of public works without loss of pay and without loss of rights under the civil service laws and rules, and shall not under any change of rating, seniority, retirement or pension rights, or any other privileges under any provision of law. Said employees so transferred may be employed under the control of the director of public works in any capacity identical with or reasonably similar to his capacity at the time of his transfer.

SECTION 5. Upon the effective date of this act, as hereinafter provided, the offices of tree warden, building inspector, wire inspector, sealer of weights and measures, cemetery commissioners, sewer commissioners and water commissioners shall be abolished, and all the powers and duties vested by General Laws, special law or by-law in said offices, are hereby transferred to the department of public works established in section one; specifically, the intent is to preserve the relationship between the town of Braintree, Randolph and Holbrook in the Acts of 1885 regarding the coordination and utilization of water resources and the disposition of actions regarding Richardi Reservoir.

SECTION 6. All heads of departments and offices so transferred to said department of public works, who are subject to the civil service laws and rules shall remain in a similar capacity in the corresponding division under the department of public works, subject however, to such changes as are necessary, without loss of civil service rights, until their office is vacated by retirement or any other cause, which office shall thereupon cease to exist.

SECTION 7. This act shall be submitted to the voters of the town of Braintree for acceptance at an annual or special town meeting not less than thirty (30) days nor more than one hundred twenty (120) days after its passage in the form of the following which shall be placed on the official ballot - "Shall an act passed by the General Court in the year nineteen hundred and seventy-three, entitled 'An Act authorizing the town of Braintree to establish a Department of Public Works exercising the powers of certain other departments and town officials' be accepted?" If a majority of the votes cast in answer to said question is in the affirmative, this act shall take effect sixty days after the affirmative vote to accept this referendum question.

SECTION 8. If the act is rejected by the registered voters of the town of Braintree when submitted to said voters under Section 7, the Selectmen shall submit the act for acceptance from time to time in like manner and with like effect at any annual town election in said town not later than that in the year nineteen hundred and seventy-five, and if accepted at any such election, shall take effect sixty days after the affirmative vote to accept this referendum question.

SECTION 9. The town of Braintree may after the expiration of four years from the date of acceptance of this act vote at an annual meeting to revoke such acceptance, and the question of revocation shall be submitted to the voters in the form of the following question:

"Shall the acceptance by the town of Braintree of an act passed by the General Court in the year nineteen hundred and seventy-three, entitled 'An Act authorizing the town of Braintree to establish a department of public works exercising the powers of certain other departments and town officials' be revoked?"

If a majority of the votes cast in answer to said question is in the affirmative, then at the next annual town election held after said vote or revocation, the town shall elect such officers as are necessary to exercise and perform the powers, rights and duties transferred to the department of public works by said act. Such action shall not affect any contract or liability then created or

existing. All general laws respecting town administration and town officers and any special laws relative to said town, the operation of which has been suspended or superceded by the acceptance of this act, shall then be in full force and effect. Any by-law inconsistent with such special or general laws shall be revoked thereby. Any subsequent vote to revoke the acceptance of this act shall not be taken more often than once in three years.

Discussion ensued involving Mr. Griffith and Mr. Halloran (3).

MOVED the following amendment by Mr. Fletcher (3):

To delete in Section 1 the words "the maintenance and construction functions" before the words "park and recreation department" and

To add in Section 5 the words "park commissioners" immediately following the words "sewer commissioners".

Discussion ensued involving Mr. Fletcher (3), Mr. Sullivan (6), Mr. Bernard (12), Mr. Parker (3), Mr. Zanca (4), Mr. Arnold, Mr. Hedlund, Mr. Lemonias (10), Mr. McGrath (12) and Mr. Galvin (5).

Comes now the question on the amendment by Mr. Fletcher (3).

Vote and count were taken and there being 43 votes in the affirmative and 101 votes in the negative, the Moderator declared the amendment NOT CARRIED (9:19 P.M.).

MOVED the following amendment by Mr. Gale (12):

That the word "meeting" following the phrase "annual or special town" be changed to the word "election".

Discussion ensued involving Mr. Gale (12) and Mr. Moore.

Comes now the question on the amendment by Mr. Gale (12).

Vote was taken and the Moderator declared the amendment SO VOTED (9:23 P.M.).

(Recess from 9:25 P.M. to 9:30 P.M.)

MOVED the following amendment by Dr. Powell (4):

That in section 3 the word "fiscal" appearing in the phrase "forty-five days prior to the expiration of the fiscal year" be changed to "calendar".

After explanation of the amendment by Dr. Powell (4) vote was taken and the Moderator declared the amendment UNANIMOUSLY VOTED (9:34 P.M.).

Further discussion ensued on the main motion by Mr. Halloran (3), as amended, involving Mr. Daylor (9), Mr. McGinnis (10), Mr. Halloran (3), Mr. Arnold, and Mr. Moore.

Comes now the question on the motion by Mr. Halloran (3), as amended.

Vote and count were taken and there being 105 votes in the affirmative and 29 votes in the negative, the Moderator declared the motion as amended SO VOTED (9:57 P.M.).

Upon motion duly made by Mr. Dykstra (6), it was

UNANIMOUSLY VOTED (9:58 P.M.): That the Special Town Meeting
be dissolved.

BOARD OF SELECTMEN

ROBERT E. FRAZIER, CHAIRMAN

DONALD J. LAING, CLERK

CARL R. JOHNSON, JR., MEMBER

JOHN F. FEHAN

Executive Secretary-Administrator

The Board of Selectmen submit the following report for the year ended December 31, 1972.

Elections:

On March 6, 1972, Carl R. Johnson, Jr. was re-elected to his second term on the Board.

Robert E. Frazier was elected as a Representative in the State Legislature on November 7, 1972. He will occupy the House seat vacated by Representative Donald J. Laing who did not run for re-election.

For the first time in its history Braintree will be represented by two Democratic Representatives. In addition, all three members of the Board will have had the distinction of having served in the Massachusetts State Legislature.

Appointments:

Robert Tenney was appointed Chief of the Braintree Fire Department April 24, 1972 to replace Daniel Ryan who retired June 9, 1972 after 45 years of service in the department.

John F. Fehan was reappointed to his three year term as Executive Secretary-Administrator on June 29, 1972.

On May 8, 1972 Robert Dawes was appointed to serve as Braintree's first full-time Dog Officer. Mr. Dawes previously served as the part-time Dog Officer.

Paul B. O'Keefe was appointed Sealer of Weights and Measures on May 22, 1972 replacing Calvin Young who resigned effective July 1, after holding that position since 1945.

Highlights:

1972 was a very busy year for the Board of Selectmen. This is perhaps best illustrated by the fact that six Special Town Meetings (with 77 warrant articles) were called in addition to the Annual Town Meeting which acted on 58 warrant articles.

The March Town Meeting denied a request for a five man Board of Selectmen and instead voted to establish a Town Government Study Committee for the purpose of making an overall review of the operation of the Town.

In November a Special Town Meeting voted initial approval of a new Department of Public Works to be administered by the Board of Selectmen. This issue will be on the ballot in the March election.

During the year the Board attended several public hearings on projects which are of major importance to the Town. Several meetings were

held relative to the River Street pedestrian underpass under the expressway. The condition of the underpass has deteriorated over the years and the Board is presently attempting to force the State Department of Public Works to replace the tunnel with a new facility which will be more convenient to use and one which will not represent a safety hazard to the residents of the area.

On June 8, 1972 a public hearing was held by the Army Corps of Engineers at North Quincy High School relative to the flooding of Town Brook at Braintree Dam and also Hayward Creek. The Board is actively working with the Corps to insure the success of the flood control study and to eliminate the threat of any future flooding at these two locations.

The Board also held several meetings relative to the flooding of the Farm River near the intersection of Granite and Pond Streets. A hydraulic study has been prepared by a consultant and will be followed up by a warrant article in the March Town Meeting to bring about the replacement of the undersized culverts in that area.

The Smelt Brook Project was approved by the June Special Town Meeting and on October 10, 1972 the Board appointed four (4) members of the Weymouth-Braintree Regional Recreation Conservation District.

Construction was started March 27, 1972 on a set of new traffic signals at the intersection of Hancock, Washington and Plain streets. This is the first project to reach the construction stage under the TOPICS Program, however, the improvement of many other intersections in the Town is now in the design stage and the Board is hopeful that further construction will be started during the coming year. On July 3, 1972 the Board voted to petition the Norfolk County Commissioners for the widening of the Washington Street bottleneck, between Pearl Street and Franklin Street. This widening will be a Chapter 90 Project and will be constructed as soon as possible utilizing a portion of the funds previously designated for the widening of Pond Street.

The year 1972 also saw the introduction of three (3) new sources of revenue for the relief of the taxpayers in Braintree. \$104,200.00 was received from the State as Braintree's share of the new One Cent Gas Tax. In addition, Braintree's share of the new lottery distribution was \$94,964.36. Both of these amounts were shown on the 1972 Cherry Sheet and therefore, were automatically reflected in the 1972 property tax rate.

In December, Braintree received its first revenue sharing check from the Federal Government in the amount of \$307,791.00. This represents Braintree's allotment for the first six (6) months of 1972. At years end we expect to receive another check very shortly in the amount of \$295,355.00 for the last six (6) months of the year. The Board will insert an article in the warrant for the 1973 Annual Town Meeting in order to determine the use of these funds. It will be the Board's recommendation that the revenue sharing funds be used to stabilize the tax rate rather than to fund any new programs or projects.

FIRST ANNUAL REPORT OF THE WEYMOUTH-BRAINTREE REGIONAL RECREATION CONSERVATION DISTRICT

Chapter 787 of the Acts of 1972 approved by the Governor on July 19th, established in the Towns of Braintree and Weymouth a corporate body known as the Weymouth-Braintree Regional Recreation Conservation District. The District was given the power to plan, construct and maintain facilities for recreation and conservation purposes within its boundaries. It was also authorized to enter into agreements with the Army Corps of Engineers for the construction and maintenance of flood control works to eliminate the threat of future flooding in the Pond Meadow water shed and Weymouth Landing.

This project was made possible by several votes of the respective Town Meetings during which \$271,900.00 was appropriated by each Town to cover the cost of the appraisal and taking of approximately 300 acres within the confines of the District. Half of the appropriation will be refunded by Federal conservation funds. The total cost of the overall project will be approximately \$1.6 million with 85% of this being funded by the Federal Government.

The District is under the management and control of a seven-man board appointed by the Board's of Selectmen in the two (2) towns. On October 10, 1972 the Braintree Board of Selectmen met with the Weymouth Board of Selectmen to make their first appointments. The Board members are:

Richard F. McDermott, Chairman 300 Middle Street, Braintree	2 year term
Gilbert J. Corcoran, Treasurer 244 Middle Street, Braintree	1 year term
Charles R. Furlong, Secretary 836 Washington Street, Braintree	3 year term
Salvatore R. Garlisi 22 Grace Road, Braintree	1 year term
Robert E. Bentley 131 Candia Street, Weymouth	2 year term
Theron I. Cain 15 Candia Street, Weymouth	1 year term
Edward T. Henley 971 Commercial Street, Weymouth	3 year term

The Board is now in the process of preparing to make the necessary land takings, creating a master plan for the Recreation-Conservation aspect of the District, as well as working with the Corps of Engineers to assist them in their construction of the flood control facilities. To assist in these tasks, the Board has appointed Harold R. Davis, 51 President Dr., Quincy as Legal Counsel and John Agnew, 30 Sundin Road, Weymouth as Consultant.

1972 REPORT OF THE TOWN CLERK

TOWN CLERK - ROBERT N. BRUYNELL
ASSISTANT TOWN CLERK - CATHERINE O. DELORY
BOARD OF REGISTRARS PRINCIPAL CLERK - EILEEN DONAHUE
CLERK - GERTRUDE A. McSHEFFREY

TO THE CITIZENS OF THE TOWN OF BRAINTREE:

In accordance with our By-Laws, I submit, herewith, a report of the operations of the Town Clerk's Office during the calendar year 1972.

The business transacted during the calendar year 1972 amounted to \$28,482.25, a continued increase over previous years. This tremendous increase only partially reflects the increase in work load as most of the services we perform do not involve income.

During the year Catherine O. Delory was moved up to Assistant Town Clerk and her new position has been most helpful in expediting the business transacted in the office.

We are still determined to give Braintree the best Town Clerk's Office in the State and we welcome your suggestions to help us attain this goal.

If you have any questions or problems that I can help you with, call me and if it is something that I can help you with, I will be glad to do it. Remember, we never consider your calls as an interruption of our work, but rather as the purpose of it.

In closing may I once again thank my dedicated staff, department heads and personnel from other departments, and most of all, you, the townspeople of Braintree for the wonderful co-operation extended to us. It is indeed a pleasure to work with you and for you.

A review of the new arrest report for the year 1972 reveals certain relationships between the alarming increases in certain crimes. Narcotic arrests have more than doubled in one year. Breaking and Entering arrests have nearly doubled along with the larceny categories which also have increased by fifty percent. Shoplifting accounted for eighty-one of these larcenies and indicates the increased work load on the department.

Another area of concern is the thirty percent increase in drunkenness arrests and the fifty percent increase of arrests for operating a motor vehicle under the influence. Perhaps of more alarming concern is the fact that the arrests for drunkenness in the age group, sixteen to twenty, is far greater than any other age group.

Disorderly conduct accounted for four arrests in 1971 as opposed to seventy-eight arrests in 1972.

The Southeast Chapter of the Massachusetts Heart Association has, in the years 1971 and 1972, conducted intensive training in Cardio-pulmonary Resuscitation. Fifty-one Braintree Police Officers have successfully passed this training course and twenty-four of these have attended re-training classes this year.

Our ladies in blue and the auxiliary police exemplify Braintree's finest and have been of immeasurable help to the Department and the Community.

To the men of the Department I say "thank you," for you are the backbone of the Department and your mission is a most delicate and arduous one.

Whatever success or assistance we may render this community depends largely on the attitude and assistance offered by you the citizenry.

We thank you and stand ready "To Serve and Protect".

REPORT OF THE FIRE DEPARTMENT

ROBERT A. TENNEY

CHIEF OF DEPARTMENT

SUPERINTENDENT OF FIRE ALARM DEPARTMENT

The following alarms were answered by the Braintree Fire Department during the year 1972:

Still Alarms	1125
Box Alarms	466
Box Alarms Transmitted	188
Automatic Alarms (Private Systems)	58
Flase Alarms	289
Sprinkler Alarms	88

During the year 1972 we used:

- 11,950 feet of 3" hose
- 9,550 feet of 2 1/2" hose
- 19,950 feet of 1 1/2" hose
- 57,350 feet of 3/4" hose
- 2,288 feet of ladders
- 67 Ansul and CO2 Extinguishers
- 229 Pump cans
- 22 Salvage covers

Engines pumped water for 133 hours and 10 minutes.

32 of the Building Fires were inspected and investigated by the State Fire Marshall's office.

1972 Property Valuation involved by fire was \$11,939,401.00 with a loss totaling \$285,355.15.

In 1973 I am requesting 8 New Men to cover 2 Ladder Trucks which are at present being manned by only one Private, the Driver, who must see to the proper operation of the truck and so may not enter a burning building or perform any other duties which may be necessary at the scene of a fire.

The New Ladder Truck and Pumping Engine voted at the 1970 Town Meeting were delivered in 1972 - the Ladder Truck in January and the Pumping Engine in February.

10 New Fire Boxes were added to the Fire Alarm System in 1972 and 5 miles of wire was used in installing new boxes and replacing old worn out wire. False Alarms are still a time consuming and costly problem. Pulling a False Alarm could result in a jail sentence or a \$100.00 fine or both. Mutual Aid plays a very important part in the protection of life and property. We are grateful to have automatic Mutual Aid with our neighboring city and towns.

All new members of the Department are required to take a 6 week course at the State Training Academy in Framingham. In the last few years, courses have been made available at Massasoit Community College, West Bridgewater, and Massachusetts Bay Community College, Fire Headquarters, Boston, so that officers and men may increase their knowledge of Fire Science and keep abreast of the times. Thirty members of the Fire Department have taken advantage of these courses, attending classes on their own time.

Fire Prevention is the most effective way of lowering the Fire Loss and minimizing the physical danger to our people. This year as in past years we have continued the Junior Fire Marshall Magazine Program in the schools. Through this program, more than 21,000 homes in Braintree are inspected during the year. The distribution of these Junior Fire Marshall Magazines help control hazardous conditions in the home.

All stores, shops, factories, industrial plants, garages, gas stations, hospitals, convalescent and nursing homes, hotels and motels, schools, churches, town buildings and dance halls are inspected regularly by the in-service companies from each station so that all members of the department may become familiarized with all the buildings in the town. Inspections are made on Saturdays and Sundays so as to interfere as little as possible with the regular operation of businesses.

Our inspections in the churches totaled 62.

In 25 schools (public & private) we held 595 Fire Drills.

Inspections as well as Fire Duty are done by all Deputy Chiefs.

Supervised Drills are carried out every day, Monday through Friday for 2 hours. In the summer, we have outside and inside drills - 2 hours during the day and 2 hours at night.

Permits issued for the year 1972 by the Fire Department

Permits for Blasting Operations and Inspections	53
Permits for Storage of Fuel Oil, Burner Installation & Alteration	165
Permits for Storage of Diesel Fuel & Inspections, Kerosene and Misc. Permits	5
Permits to Fire Model Rockets	14

Please accept my personal thanks to all who have assisted the Fire Department in any way.

REPORT OF THE BRAINTREE PERSONNEL BOARD

Theodore W. Browne, Jr., Chairman

Luther Finerfrock, Vice Chairman
William J. Hajjar

John A. Stenberg, Clerk
Francis J. Toland

In accordance with Section 3, paragraph (t) of the Personnel Board By-Laws, we hereby submit our Annual Report for the calendar year 1972.

During the early part of this year, we completed our review of the study conducted by the Charles M. Evans Associates covering our wage and salary classification plan.

The proposed plan was presented at the Annual Town Meeting in March and following a lengthy discussion, was adopted by vote of the Town Meeting Members. We feel that this was an important step taken, since the last time a study of this type was conducted was about twenty (20) years ago. We would recommend that this be up-dated by an outside concern at least every five (5) years.

In addition, we would request that during the next calendar year, a Personnel Officer be appointed, as per Section 3, paragraph (e) of our By-Laws.

In addition to the above, we again represented the Board of Selectmen in conducting collective bargaining with the various Town Departments through Sanford Kowal, Esq., the Town Negotiator.

In October, Mr. Joseph Harraghy and Mr. Edward E. Kuypers, of the Collective Bargaining Bureau, were appointed to act as the Town's negotiators for the coming year. This will cover a contract period of fifteen (15) months.

Due to Phase I & II of the Wage and Price Freeze, ordered by President Nixon, we were only allowed to grant an increase of 5.5% for this year, and will be faced with the same controls for next year.

REPORT OF CHAIRMAN, SCHOOL COMMITTEE

1972

ALEXANDER PARKER

It is with mixed feelings that I submit this annual report to the town. I am proud and appreciative of:

Community support of our educational objectives while right-fully applying pressure for better performance and cost effectiveness.

The co-operative and constructive attitude of the vast majority of our 9256 students and their parents.

The dedication and accomplishments of our faculty and staff.

The competence and patience of our administrative staff in the face of unusual problems and pressures.

The faithfulness of those school committee members who have given unstintingly of their time and talent, not always harmoniously, but always constructively for the betterment of our school system.

Along with other committee members and staff, I share a sense of disappointment that we have not been able to fully explore and develop many possible areas of improvement. While there is still much work to be done to make our fine school system even better, considerable progress has been made this year. Some highlights are described below.

CAREER EDUCATION:

We are in the second year of a project in career education in which the Director of Career Education and Industrial Arts is deeply involved. The purpose of the program is to try to make certain that the knowledges and skills of a child moving up through the grades will be coordinated with the knowledges and skills expected of him later in life. We are attempting to make elementary teachers aware of those bits of knowledge that, added with other information in succeeding years, will be meaningful on a job after school has ended. Curriculum is being developed by our staff in close co-operation with the Blue Hills Regional Technical School with the objective of improving job entry skills particularly for non-college bound students.

Another aspect of this project is to list the basic skills in some thousands of jobs and establish them in a computer bank so that a person interested in a particular job can refer to the computer for the steps or knowledge necessary to prepare for that job. This work is being federally supported.

CONTRACT NEGOTIATIONS:

Contracts have become a way of life and much School Committee time is spent in negotiating with the four associations in the system. Last year there were 26 meetings of the School Committee on contracts aside

from meetings with smaller groups and several trips to the Labor Relations Board over disputes. Board over disputes. The last contracts to be signed were for two years and may help reduce the total hours devoted to negotiations. This work of the School Committee is extremely important because 87% of the school budget is spent on salaries.

NEW POSITIONS:

There were several new positions created this year. With the opening of the third junior high school, we had to create the position of another principal. Rather than establish another assistant's position, we removed one of the assistants' positions from East Junior High because we cut back on their enrollment. While we opened another elementary school, we did not appoint another elementary principal but rather moved present personnel in such fashion that another principal was unnecessary.

The position of Audio Visual Director was vacated by the retirement of David Ward and the position was enlarged and changed to that of Media Director and thus no new position was created there.

We did establish a new position of Director of Special Services. This had been in the planning for several years because the various sections of special education had been the responsibility of a number of different persons. The subject of special education calls for a highly skilled person trained in this particular field and the need for a specialist became increasingly urgent. Under this position falls the emotionally disturbed, the educable (slightly retarded), the trainable (more seriously retarded), Project Prove (retarded of high school age), a federally supported project, and the perceptually handicapped, in which category it is said 10% of our total school population may be classified. These programs are either mandated by state law or are required by circumstances. Our intent is to emphasize early detection and diagnosis of handicaps so that early and effective corrective or compensating programs can be initiated.

In adding the ninth grade to the high school and larger classes coming up from junior high school, we moved the high school population from about 1850 students to 2750. All we did administratively was to add one housemaster in order to establish four "houses". In all, because of the larger high school enrollment and a new junior high school, 30 teaching positions were created.

Promotions because of new positions or vacancies were as follows:

Mr. John W. LeRoy, Jr. promoted from high school teacher to Housemaster.

Mr. Edward A. Arcikowski, promoted from Assistant Principal, East Junior High, to Principal of Central Junior High.

Mr. Antonio J. Quintiliani, promoted from junior high teacher to Assistant Principal of Central Junior High.

Mr. John Malloy appointed to new position of Special Services Director.

Mr. Donald W. Smith appointed to changed position of Media Services Director.

Mr. William R. White, promoted from physical education teacher to Director of Physical Education & Health.

Mr. Philip Kliman, promoted from Department Head of Industrial Arts to Director of Career Education and Industrial Arts.

Mr. Frank W. Tricomi, promoted from Senior Custodian of the High School to Supervisor of Custodians.

Mr. Byron D. Long appointed METCO Coordinator.

COMMUNITY PARTICIPATION:

An attempt is being made to gain more community participation and help with on-going programs, new programs, and evaluation of old programs. We have advisory committees in Adult Education, Industrial Arts, Title I, Special Services, Band Parents, Perceptually Handicapped, Goals and Objectives, Business Practices, High School Clerical Assistance, Library Moving Assistance, Transportation Advisory Committee, Braintree Scholarship Fund, and Braintree Boosters Club (athletics). A single example of volunteer help is illustrated by the movement of all library books from the old high school to the new building by mothers, teachers, and students. Other mothers and townspeople assisted in many ways in bringing about one of the greatest moves in the history of the town. Tons of educational equipment were moved at no cost to the town. To all these people we are most grateful. They have served and are serving to help us make our schools constantly better.

TOWN DEPARTMENT RELATIONSHIPS:

One of the attempts made by the School Committee this past year was that of trying to establish closer relationships with other town departments. While there may be few with which we have much in common, we nevertheless did try to help the Recreation Department by assisting their new Youth Director in establishing his programs in the schools. We believe this cooperative effort helped both departments. We did work closely with the police and, while they have more to offer us than we do them, we did have a number of conferences with the Chief and other officers which were beneficial. The Selectmen, Highway Department, and Town Counsel have been most cooperative and close liaison continues with the Town Accountant and Treasurer.

GOALS AND OBJECTIVES:

The Department of Education of the Commonwealth set ten goals and objectives for local school systems and required each system to make a report on the means of achieving those goals and how successful it was felt the system was in meeting those goals. After many months of meetings within the system with teachers and administrators, the document was given to the P.T.O. Council for their observations and criticisms. Perhaps the main value of this type of evaluation is to cause people to take a closer look at the programs in the school system hoping to come up with improvements.

The ten goals established for town and city school systems are:

1. Physical and Emotional Well-being
2. Basic Communication Skills
3. Effective Uses of Knowledge
4. Capacity and Desire for Lifelong Learning
5. Citizenship in a Democratic Society
6. Respect for the Community of Man
7. Occupational Competence
8. Understanding of the Environment
9. Individual Values and Attitudes
10. Creative Interests and Talents

METCO:

The School System began its seventh consecutive year in the METCO Program. Although the School Committee voted to expand the program to 62 students, METCO budgetary limitations required a continuation at the 44-student level. Under the guidance of our new METCO Coordinator, Mr. Byron Long, a graduate student at Boston University, the METCO youngsters

are enrolled at all levels of the school system. Thirteen (13) METCO students graduated in June 1972 from Braintree High School, 12 of whom are continuing their education, most in four-year universities. Three (3) youngsters are presently in the senior class and are the remainder of the original group of 20 who entered junior high school 7 years ago. All the other 41 children are at the elementary level in Monatiquot and Noah Torrey Schools. From experience we have learned that it is better to introduce children from out-of-town into the elementary grades. They have a better chance for normal adjustment to our system.

UNDERSTANDING:

During the past two years we have become mindful of the fact that in the growth of our system we have been drawing away from people reacting to one another to a position of reacting to conditions without proper concern for the individuals involved. We have worked to impress on all school personnel that we need greater attention applied to human values. We need to have teachers remember that the student learns better in a personalized situation where the student knows the teacher cares. We have had numbers of meetings with schools to try to find better ways to become sensitized to people around us. The high school teachers, because of their new large building, are trying to establish better lines of communication between each other and the students. The result should be a warmer, more friendly relationship.

RETIREMENT OF WILLIAM F. YOUNG, SUPERINTENDENT OF SCHOOLS and RETIREMENT OF WALTER K. HJELM, PRINCIPAL OF BRAINTREE HIGH SCHOOL:

The School Committee has accepted with regret the decision of Mr. William F. Young, Superintendent of Schools, to retire in March 1973. We feel that both the community and the school system have been most fortunate to have had his services as Superintendent since July 1963 and both are significantly better for his tenure.

We also regretfully accept the decision of Mr. Walter K. Hjelm to retire in June 1973 after 18 years of service to the School System. Mr. Hjelm caps his constructive career by superbly planning and directing the smooth transition to our new high school.

We shall miss them and we extend to Mr. and Mrs. Young and Mr. and Mrs. Hjelm our best wishes for a healthy and happy retirement.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

1972

WILLIAM F. YOUNG

The year 1972 brought to completion the program of construction and realignment underway for the past several years in our school system. This has meant the occupancy of the new high school on the northwest side of Sunset Lake off Town Street with 2785 students. It has also changed the old high school on Washington Street to Central Junior High School, and the use of the Hollis Building next to the old high school, until recently used for high school sophomores, into another elementary school. Hollis School in 1912 started its life as an elementary school and later became the first junior high school in town. Thus we have a new high school, an additional junior high school, and an additional elementary school by this change.

The realignment shifts from the common 6-3-3 system, or six years elementary and three years each in junior high and senior high, to a five-year elementary system, a middle school consisting of grades 6, 7, and 8, and finally a four-year comprehensive high school. This, with kindergarten to begin the school child's experience, offers many advantages. It makes for an ideal middle school classification where the program will be more in keeping with the age group of eleven to thirteen years. It places ninth-graders at the bottom step of the four-year high school where they are better suited and where too the four-year program allows for better continuity of subject. The four years preceding high school graduation are the years for which colleges wish records, and these are now more easily brought together in the one grade nine through twelve sequence.

But, aside from realignment of grades according to a better behavioral and attitude pattern and course continuity, we have created a building plan that will provide for our children for many years to come and when it will not be a worry for taxpayers having to face new school construction. Even if the parochial schools accommodating our Braintree children were to close, we can take these pupils without fear of overcrowding. The town's school building program is in the best possible condition; and, as each succeeding year comes, the interest and debt payment on recent buildings will become less with no foreseeable new town school construction debt. We have made one other notable improvement in being able to close the superannuated Perkins School built in 1894 and at which opening it was considered of such significance that the Governor of the Commonwealth attended its dedication. The present School Committee has voted to turn the building over to the Selectmen for whatever purpose they may deem advisable. The School Committee in this action did request that the name Jonas E. Perkins be maintained.

At present, all our school buildings have been erected since the turn of the century. The three oldest are Penniman School, 1900, Noah Torrey Elementary School, 1905, and Lincoln School, 1910. However, with the exclusion of grade six from all elementary schools, we have freed classrooms for libraries or what are now called media centers, art rooms, and project rooms, allowing for much more flexible programs. Also, special programs such as those for remedial reading, the perceptually handicapped, are no longer forced to operate in halls and closets.

One of the truly exciting events of the year was the Open House on the last Saturday and Sunday afternoons of April when approximately 15,000 people visited the new high school building. Following that affair, a tremendous moving operation began when all the books and equipment from the "old" high school had to be moved to the new building. This great effort was accomplished by teachers, parents, and students who volunteered their services and donated countless hours. Moving and setting up in the new Media Center the 12,000 volumes from the old library were carried out by parents, teachers and students and took many hours. Students transported their own books and helped transfer all the science, art, and industrial arts supplies as well as those pieces of equipment in all other departments. This was truly a great undertaking.

What led to the smooth and efficient opening of school in September were the many committees of teachers and administrators who had been planning for over a year on many aspects of the change. There were three committees working on School Philosophy, Redistricting, and Staffing. All the efforts of these committees were of inestimable help in their recommendations to the School Committee. The philosophy of the school system had not been defined for some time and needed to be rethought. As a result, the Committee evolved an excellent statement worthy of a good school system.

The Staffing Committee was asked to plan for all changes requiring extra teachers or administrators. In their deliberations they had to consider the transfers of all sixth and ninth-grade teachers whose grades would be in the next higher grade level. Although the School Committee did not respond to all the requests, they fully appreciated the assistance given by that Committee. The Redistricting Committee had to redistrict the entire town. Since the high school had a new location, the boundaries for bus riders and walkers had to be recalculated. Also, because of the third junior high school coming into existence, the two former districts had to be divided into three parts and again busing became a major problem. And, to add to their problems, the introduction of an additional elementary school caused new district lines at that level.

We did not wish to move to a new high school or junior high school with old programs. Thus began the introduction of modular or flexible scheduling to allow for different length periods and a rotating schedule which overcomes the constant repetition of the same period of a course at the same time each day. A six-day cycle brings this desirable result. Teachers and department heads are working to make their teaching more effective in shorter or longer periods and the students appear to respond favorably to these changes. Because of flexible classrooms in the center of the new high school building for English and Social Studies, excellent Business Training rooms, a north-lighted Art Studio complex, Homemaking space to accommodate all who wish experience in that art, Industrial Arts shops the equal of many vocational schools, a Physical Education plant truly worthy of the exceptional program offered, a Science facility like that of a top-flight chemical company, modern Music Instruction quarters, and a 350-seat theatre that offers all the opportunity for staging a wide variety of activities - because of all of these we are extremely appreciative. The town has provided us with a most remarkable four-year high school.

Of the many people who worked so diligently to prepare for the opening of school this past fall, it is dangerous to select any one person because of offending others who may be overlooked. Special commendation should however be given to Mr. Walter K. Hjelm, High School Principal, who worked on programs, scheduling, and moving and in so doing displayed his unusual expertise in organizing all the various forces so that the entire high school was ready for opening day.

OPEN CLASSROOM - ELEMENTARY

A movement which has gained impetus throughout the country has been that of the "open" concept. The term is synonymous with a multitude of educational practices ranging from a completely free educational program where a child determines his own curriculum at his own rate while pursuing in depth his areas of interest. It is the latter concept which is being piloted in several elementary classrooms this year in Braintree.

At a one-week workshop during the last week in August, twenty-two elementary teachers prepared themselves and their classrooms for an "open" concept program. Materials and equipment necessary to a center-oriented approach were constructed and assembled. Members of the workshop formed the nucleus of a curriculum committee to discuss and disseminate information to other elementary teachers. As part of the evaluation and in-service education, a total elementary staff workshop was held early in December giving all elementary teachers an opportunity to visit model classrooms, view a variety of materials, and exchange ideas in small discussion groups.

PROJECT "PROVE"

The Braintree School Department received federal funds in July 1972 under Title III and Title VI of the Elementary and Secondary School Act of 1965 for Project PROVE (Pre-Occupational Vocational Education) for a three-year period. PROVE is designed to provide pre-occupational and pre-vocational training for high school aged trainable and low-educable youngsters. The real life and laboratory experiences received by the youngsters in PROVE will help to prepare them for direct entry into employment, sheltered workshop experiences which would lead to employment in the public sector, and for a safe, happy and productive life. Project PROVE is housed in the new High School and it is already considered an innovative and exemplary program.

RETIREMENTS

Each year we bid goodbye to teachers who have served the Braintree schools for many years and are retiring. This past year we had twelve whose combined service amounted to 299 1/2 years. Unfortunately one of these, Ruth Clark, died December 30. She was longest in point of service.

<u>Name</u>	<u>Assignment</u>	<u>Years Service</u>
Donald Hayward	Elementary Music	19
Lillian M. Carroll	Ross - Grade 2	27

FINIS

In his 9-3/4 years in Braintree, your Superintendent has seen great growth in the school system. The major changes have been documented in this and the preceding nine annual reports. While he leaves the system with a degree of sadness, he nevertheless believes the system is in excellent condition with exceptional personnel, a fine group of students of whom he is justly proud, a program of studies equal to any good one in the Commonwealth, and a plant sufficient for our needs for some years. He has been proud of this school system and wishes to express his appreciation to the School Committee for granting him the privilege of serving the children of Braintree. He appreciates the support the School Committee has given him and the backing of the Town by its financial support.

And finally the Superintendent wishes to express his appreciation to all the school employees of recent past and present who have cooperated well in helping make Braintree a fine school system.

REPORT OF THE BLUE HILLS REGIONAL
VOCATIONAL SCHOOL DISTRICT COMMITTEE
1972

We respectfully submit the Ninth Annual Report of the Blue Hills Regional Vocational School District Committee. The following list of Committee Members represented the seven member towns during 1972.

AVON
BRAINTREE
CANTON
HOLBROOK
NORWOOD
RANDOLPH
WESTWOOD

Mr. Bernard H. Baher
Mr. John W. LeRoy, Jr.
Mr. Nathaniel N. Wentworth, Jr.
Mr. Walter W. Donovan
Mrs. Alena Wisgirda
Mr. M. Murray Lewis
Mr. Paul M. Ballantine

The District School Committee continued to hold their regular monthly meetings on the first and third Tuesdays of each month in the administrative offices of the Regional School at 100 Randolph Street, Canton, Mass. Mr. Bernard H. Baher and Mr. Paul M. Ballantine presided as Chairman and Vice Chairman, respectively. Mr. Paul C. Murphy of Canton was appointed District Treasurer during 1972, Mr. William J. Carr of Randolph continued as Counsel; and Mr. William A. Dwyer of Weymouth continued as Superintendent-Director of the Regional Vocational School.

During 1972, the continuing demand for admissions to Blue Hills rose to a new high and the average acceptance ratio, due to limited seating capacity, was reported to citizens in the July 1972 progress report on the expansion program. Unfortunately, four of every five students applying to the Regional School were denied admission.

By September of 1972, a record enrollment of 881 was recorded in the regional day school and considering the school capacity is 580 students, the need to expand the facilities became more obvious and pressing daily as the school committee was to commence requesting town meetings to approve an expansion of existing facilities in 1972.

Authorized by the regional school agreement as of 1964, and required by State and Federal laws pertaining to vocational education, to provide vocational opportunities for high school students, post graduates, denied the opportunity to attend Blue Hills during high school, high school dropouts, returning veterans in need of preparation for the job market, adults in need of training or retraining in order to continue in their vocational or technical or medical job market, the District School Committee made prudent use of their limited space facilities as follows:

The Regional School Capacity --- 580 Students

High School Students were deployed to capacity in educational programs during regular hours (7:40 a.m. - 2:30 p.m.) (1972)	575 students
--	--------------

Post graduate students were generally programmed to utilize lab/shops/classes on off-peak periods and times through 5:45 daily - thereby providing maximum use of facilities and minimizing post graduate costs for the taxpayer to instructional costs only

306 students

The following Financial Aid from Chapter #74 and (PL 90-576) and Federal grants for post secondary tuition and state aid further reduced post-secondary students costs as follows:

Total Post Secondary Instructional Costs	\$364,000
Reduced by Chap. #74 Aid	\$119,000
Reduced by Federal Post Secondary Grant	34,000

OFF CAMPUS CAREER DEVELOPMENT PROGRAMS

Further maximum utilization of the Blue Hills facilities has been demonstrated during 1972 by providing staff, instruction and operating assistance to the Towns of Randolph and Holbrook, both towns sending student applications to Blue Hills at the approximate rate of 8/10 for every 1 acceptance. The District School Committee anticipates offering such off-campus programs in Career Development to all other member towns as soon as facilities can be expanded at Blue Hills.

At the present time 497 students are enrolled in exploratory career programs sponsored by the Blue Hills Regional District School Committee in their own high schools as follows:

At Randolph High School	350 students
At Holbrook High School	<u>147 students</u>
Total	497 students

Adult Vocational Training programs at Blue Hills
Enrollments (1972) 7:00 P.M. to 9:30 P.M. Mon.-Thur. 700 Adults

1972 Total Enrollment Summary

Summarizing 1972 enrollments at Blue Hills on Campus --- 575 High School students admitted (High School vocational training)

	144 Post-grads (cer)
after High School -- due to inability to gain admission while in High School	
Post Graduates (Taking additional courses to receive A.A. degree)	162 Post Grads
Evening adult enrollment	700 Adults
Off-Campus students (high school)	<u>497 High School</u>
Total	2,078

Blue Hills served in 1972 a total of 2,078 enrollments either by day, late afternoon, evening or off-campus programs.

The Regional District School Committee urges the citizens of the seven member towns to recognize their dilemma and support the expansion as proposed for additional On Campus facilities in 1973.

COLLABORATIVE SERVICES RENDERED
THE MEMBER TOWNS OF THE REGIONAL SCHOOL

Data Processing and Computer Program Services

The District School Committee continued providing off-peak computer services to the member towns of the district, by using their educational computer to program an estimated \$275,000 in data processing services for the seven member town school departments.

The off-peak computer operation utilizes the Data Processing Lab 24 hours daily on a non-profit base, realizing savings to the member towns of approximately \$185,000.

During 1972 the following list of programs was provided member town school departments:

1. Computer based financial accounting systems.
2. High School and junior high school program scheduling.
3. High School and junior high school daily attendance reporting.
4. High School and junior high school report cards.
5. High School Fortran Mathematics.
6. Computerized statistical data for annual State Report.
7. Elementary School Attendance.

The above program services provided accurate reporting data for:

- (a) Seven major high schools (all students).
- (b) Estimated twenty junior high schools.
- (c) Estimated forty-five elementary schools.
- (d) Seven school department administrative offices.

The computer services center at Blue Hills anticipates developmental program research in the following areas during 1973 and should the Regional School be approved for expansion during 1973, many of these services could be offered the communities in the District upon completion of the new Data Educational Center.

1. School Department payroll.
2. Educational Testing Services.
3. Computer Based Career Information Data.
4. Bus Transportation Schedules.
5. Community services such as payroll, tax bills, water bills, and accounting.

Curriculum Innovation

During 1972, academic workshops were approved by the District School Committee that would provide more diversified academic curricula, a program of studies that would more directly provide for the broad range of individual aptitudes and interest in the academic areas of the total curricula.

The resultant curriculum revisions were implemented in September of this calendar year.

Federal Grants (1972)

During this calendar as a result of grant proposals prepared by the Superintendent-Director the following federal monies were received by the

Superintendent-Director the following federal monies were received by the District School Committee for innovative programs at the Blue Hills Regional School. Such monies were provided to improve, extend and maintain the pilot model programs at Blue Hills approved by the Office of Education.

For Post-Secondary programs (co-op)	\$ 34,027.00
For work study and student aid	41,823.00
For Federal disaster aid (repairs to gym roof)	15,000.00
For Project Career Curriculum study	37,000.00
For elementary Career Awareness (a mobile career trailer)	21,800.00
For programs (Handicapped-retarded	22,500.00
For exemplary Model Cooperative Career Development (National Pilot Model Program) Blue Hills and Randolph Public Schools	151,000.00
From National Industrial Equipment Reserve Center (Free equipment valued at \$45,000)	45,000.00
Total	\$368,150.00

*During 1972, the Blue Hills Regional Vocational School District was established as the National Pilot Model for innovative development of a district wide career education concept.

Driver Education

During 1972 a formal driver education program was approved by the District School Committee with classroom and on-the-road training provided for student after regular school hours. The total cost for such training is absorbed by the student.

Final Expansion Planning and Town Meeting Action on \$13,500,000 Bond Issue

After three years of intensive study, research and planning, as reported to the citizens of all member towns during the past two years in their annual reports, the District School Committee ultimately approached the countdown stages of the expansion program during 1972 and the following calendar of events resulted in the disapproval of the building project by the negative action of both the Braintree and Westwood Town Meetings in November and December of 1972.

Town Meetings November 28 to December 13

Final date for all seven towns to have taken action on the proposed bond issue for the expansion of regional school December 16, 1972

Upon completion of all seven town meetings by December 13th, 1972 and all seven towns having had the option to vote approval or disapproval of the regional school committee vote to incur debt for the expansion of the regional school within the thirty day period as required under Chap. #71, the District Committee reports the following disposition of this expansion effort.

The Town of Braintree and the Town of Westwood, both having voted indefinite postponement of the District School Committee's proposed article to approve the expansion of the regional school, the entire expansion effort, at this time, was lost for year 1972.

In accordance with Regional School law, if any one of the seven member towns of the regional district disapproves the bond issue, "the expansion debt may not be incurred and the district school committee shall prepare another proposal which may be the same as any prior proposal and an authorization to incur debt therefor".

At the time of this report, the Regional District School Committee has not made any decision regarding a new request to the towns for facility expansion. However, should such a decision be reached during 1973, adequate notice shall be forwarded all member towns.

LIBRARY DIRECTOR'S REPORT - 1972

PERSONNEL

In June Mrs. William Toner, Reference Librarian, resigned to move to Wilkes-Barre, Pa., where her husband is now Director of the historical museum. Mrs. Frank Nagy has transferred to the Reference Librarian's position and Mrs. Roger Ormon has joined the library staff as Circulation Librarian. Miss Mary Boyce of the Children's Department staff resigned in August to continue her education, and was replaced by Mrs. Kathy Weil.

LIBRARY USE AND SERVICES

The year 1972 brought an increase in circulation at the branch libraries and in the adult department of the Main Library. There has also been a noticeable increase at the Main Library in the use of materials and facilities within the library. Continuing the type of statistical sampling used last year to evaluate the reference and readers advisory services, we estimate that approximately 19,500 questions were serviced by the library staff during the year. This total, arrived at by a three-month survey and projection, includes in-library, telephone and mail service.

Transfer from the juvenile to the young adult library card was changed this year from the seventh to the sixth grade. Emphasis is placed on the fact that the young adult card may be used in either the adult or the children's department. This gives the young reader a wide choice of materials at an age when reading abilities and interests may benefit from this choice.

A library-use survey at the Watson Park Branch indicated an increasing demand for Saturday morning service. In response to this demand, the Branch is now closed on Wednesday evenings and open two hours on Saturday mornings.

Use of the copy machine in the Main Library has shown a marked increase during the year. The multiple copy service which offers a discount rate for 27 or more copies has been very popular. In response to demand, a second copy machine has been installed at the Watson Park Branch, with service available during normal branch hours.

Services have been provided to Franvale, John Scott, Elihu White, and Braintree Manor nursing homes, including 3150 books plus recordings and films. In December, the Watson Park Puppeteers presented two of their productions at the Elihu White Home.

Interlibrary Loan Service reports a 25% increase in the number of transactions. 519 requests were processed during the year. Of this number, 364 were filled, 114 were pending at the end of the year, and 22 books, or 4.2% of the total number of requests, were reported not available. Daily truck delivery from the Quincy sub-regional library has provided quicker and better transportation of materials to and from Boston, Quincy and the other sub-regional libraries.

We have continued to provide film service from the audiovisual department of the Boston Public Library, through the Eastern Regional System. As far as possible, we have obtained films for nursing homes, schools and individual organizations in Braintree, as well as for the library's own programs. A total of 316 requests were processed during the year. With the opening of the new addition to the Boston Public Library and the consolidation of film services and supplies from the Charlestown processing center, we hope to be able to provide better film service in 1973. A collection of Super-8 films is now available from the Quincy sub-regional library.

To keep our readers informed about the library's new acquisitions, a monthly new-book list has been published throughout the year. Copies are available at the Main Library and at both branches. The list in its current form is limited to new book titles. During the coming year, we plan to add news about acquisition of other library materials such as recordings and microfilm.

LIBRARY COLLECTIONS

The Adult Department has concentrated on an evaluation of its collections in an effort to eliminate outdated material and give adult readers a wide spectrum of reading in both fiction and general categories. The large print collection has been expanded to include a new line of publications which features many current titles. Readers with "tired eyes" and those who are otherwise visually handicapped are now offered large print editions shortly after the books are published in regular trade editions. Improvements in the weight and format of the books have also made the large print editions more attractive to senior citizens and nursing home patients.

A talking book machine display was featured during the year at both the Main Library and the Watson Park Branch. The display offered an opportunity for firsthand inspection of materials and equipment available from the Library of Congress through the services of the Perkins School for the Blind in Watertown.

A jigsaw puzzle exchange was initiated in the spring. Borrowers were encouraged to bring puzzles that they no longer wished to keep and to exchange these for new worlds to conquer. Named "The Crooked Line" the collection was given an enthusiastic reception and received aid and encouragement from the Friends of the Library. We now have puzzles on hand which may be borrowed and which, on occasion when space permits, offer a pleasant afternoon to borrowers in the library.

CHILDREN'S SERVICES

Children's Librarian Mrs. Gloria Trowbridge has conducted story hour programs at the Main Library and at the Highlands Branch. The Highlands program was, until recently, held in space provided through the generosity of the Highlands Community Baptist Church. The closing of the church building has temporarily moved the operation into the Highlands Branch Library where space is already at a premium. At this writing, we are casting about for a solution to this problem since there is an expressed desire on the part of the community to continue the story hour program in the Highlands area.

In June the Watson Park Branch reluctantly said farewell to Mrs. Gladys Timmons who had conducted the Friday morning pre-school story hour program for several years, under the auspices of the Braintree Point Woman's Club. The Library extends to Mrs. Timmons its appreciation not only for the many hours devoted to the planning and development of the program but also for the warm, friendly atmosphere which has been created as a setting for the pre-school story hours. Mrs. Edward Metayer is now carrying on that tradition, assisted by Club volunteers Mrs. Mary Cristoforo, Mrs. Claire Feeney, Mrs. Ethel Spano and Mrs. Edna MacDonald.

In addition to the pre-school story hours, the work of the Children's Department has included regular Monday morning library orientation programs for fifth grade classes in the Thayer House Program, storytelling sessions for older children, film showings, miscellaneous workshops and summer reading programs in the Main Library and both branches. A total of 5690 children participated in 219 events in the Department during the year. The statistical report indicates a sizeable increase in the number of school deposits furnished this year.

Discussion and demonstration programs have been provided at both the Main Library and the Watson Park Branch for mothers with children in the story hour programs. The Library acknowledges with thanks the contributions made by the Child Study Association in providing discussion leaders for the groups, and by town residents who have presented programs at the sessions.

In the Main Library plans are now nearing completion for the conversion of exhibition and storage space on the lower level to a Children's Room for pre-school through third grade borrowers. Part of our state aid funds was used for this project which will provide some much-needed relief in the serious overcrowding on the Main Floor. It is hoped that the new area will be ready in the late winter or early spring.

SPECIAL EVENTS

In April the Main Library was honored to host Swedish lecturer and authority on children's literature, Mrs. Mary Ørvig. While in the United States, Mrs. Ørvig delivered the annual Arbuthnot Lecture at the University of Chicago and spoke to groups in Washington, Philadelphia, Toronto and Braintree. The program in Braintree was jointly sponsored by the Thayer Library and the Eastern Regional Library System.

The month of November brought several enjoyable events. At the Main Library Dr. Walter Muir Whitehill, Director of the Boston Athenaeum, spoke on the history of the Boston Public Library, at the first of a series of cultural events planned by the Friends of the Thayer Public Library. The Old Colony Library Club held its 60th anniversary meeting at the Watson Park Branch Library. At the end of the month, the annual Holiday Book Festival, under the general direction of Circulation Librarian Mrs. Deborah Ormon, included displays of books, recordings and periodicals suggested for Christmas giving. Along with the displays, the week included musical concerts by Patricia and Virginia Byrne, a choral concert by students from East Junior High School, a toy safety lecture by Lewis C. Clapp, President of Toy Review Magazine, a wine selection discussion by Wine Consultant Roger Ormon, a puppet show by the Animal Rescue League, and a demonstration by the Franklin Park Zoomobile. Art and craft displays by local students and Campfire Girls also had an enthusiastic reception. Town Clerk Robert Bruynell, Mrs. Edward Metayer and Library Trustee Mrs. Doris Canavan participated in the ceremonies which opened the Festival.

Throughout the year, the library display cases continued to present timely and interesting exhibits. Of special interest was an exhibit by David Taylor of Braintree on the art and technique of bird carving.

GIFTS TO THE LIBRARY

We also extend thanks to those individuals who have given books and other library materials and who wish to remain anonymous.

Thanks are also due to Mrs. Paul Wood, Miss Ruth Fox, Mrs. John Canavan and Mrs. Robert White, and to Mrs. Manley Davis and members of the Braintree Garden Club for flowers and flower arrangements throughout the year. A pair of Raggedy Ann and Andy dolls, made and donated by Mrs. Eleanor Cirignano, have been enjoyed by adults and children alike.

The Watson Park Branch has been the recipient of several gifts this year. The Braintree Point Woman's Club has added an attractive wall screen to the Singer Graflex movie projector donated last year. Also donated by the Club was a set of snack plates and cups for the Staff Room. Two wooden planters were received from members of the Young Homemakers Group which meets at the Branch. Also donated to the library were a doll collection and a set of vases showing the steps in the production of Chinese enamelware.

In May the Library received news of the death in Lisbon, Portugal of Mr. Gilbert L. Bean, Chairman of the Board of Trustees. The first reaction to an event of this nature is inevitable sadness and shock at the loss. It was a privilege for the Trustees and the Library Director to know and to work with Mr. Bean, and we feel that the best tribute to his memory will be the continuation and development of fine library service to the entire Town of Braintree.

Mr. Thomas J. Galvin has been appointed to fill the vacancy on the Board of Library Trustees. A resident of Braintree, Mr. Galvin has made many outstanding contributions to the library profession. He is at present Professor of Library Science and Director of Students, School of Library Science, Simmons College.

15,000 Cubic yards of fill contracted for was used to cover a portion of the dump and the remainder was used to cover refuse from the Incinerator.

LEAF REMOVAL

Braintree is in the Metropolitan Air Pollution Area and no outside burning is permitted. The Highway Department started picking up leaves on October 28, 1972, and for five weeks worked six (6) days a week and for two (2) weeks worked the regular work week. During this time we had three (3) leaf vac's, two (2) street sweepers and the loader working on leaves. This year the month of November was an extremely wet month and did cause us some delays in picking up leaves. The Highway Department, also, picked up bags of leaves since the rubbish contractor would not take bagged leaves.

PRIVATE PROPERTY SPRAYING

The procedure for spraying private property for all trees other than Elm is as follows:

The party for whom the spraying is to be done makes application and payment to the Town Treasurer, who in turn forwards to us a copy of the receipt for payment. This copy of the receipt is our authority to spray.

This year there were many more applications for spraying and as a result the monies in our budget were expended early in July. We, therefore, had to refuse to take anymore applications for the year. The last three or four years we have found that many people apply again in the fall and we have been unable to take care of these application, however, we hope to be able to take care of these in the future.

DUTCH ELM DISEASE

33 Samples of suspected trees were sent to the University of Massachusetts, Shade Tree Laboratories, Amherst, Massachusetts.

Report of their diagnosis was as follows:

Diseased	24
Sterile	9

This year thirty-one (31) trees were contracted to be removed, fifteen (15) that had been carried forward from last years list and sixteen (16) from this years list. Trees still to be taken down from this year's list will be removed next year and I hope with the increase in our budget this situation will be remedied. The cost of removal is much higher now than in previous years since the Town Dump is closed and all large trunks, limbs and stumps have to be taken out of Town.

BOARD OF WATER COMMISSIONERS ANNUAL REPORT

Your Board of Water Commissioners are pleased to submit their annual report for the year ending 1972.

The expansion and improvements at the Great Pond Pumping Station and Filtration Plant should be ready for "Open House Inspection" during the summer of 1973 and the citizens of Braintree and their children will be most welcome to view this municipal owned facility. The capacity of the Filtration Plant has been doubled to 12 million gallons per day and we should live without water restrictions providing the reservoirs remain stable. This expanded facility should take care of the town's requirements well into the next century.

The continuing excavations at the expanding Richardi Reservoir is spelling out our efforts to ward off the effects of future droughts. It is hoped the Town of Braintree can attain an unmatched success by completing this all important reservoir which will equal the combined capacity of the existing Great Pond and Upper Great Pond Reservoirs.

Improvements to our distribution system have continued over this past year with most streets in our town being serviced by at least a six inch main line with improved hydrant delivery. Some of these new main lines have replaced two and four inch lines that were installed before the turn of the century.

A computerized analysis of our complete distribution system has been received and indicates the need for two additional standpipes, one in the Lincoln Heights, East Braintree area and another in the Forest Street, Braintree Highlands area. Related feeder and discharge mains, to and from these new reservoirs, should be installed along with increased sized main line replacements in other parts of the town. An annual capital outlay plan should be set up to implement our distribution system and paid for from revenue earnings.

Your Water Commission sadly acknowledges the passing of Arthur L. Whitten during this past year. Arthur served as a Water Commissioner for thirteen years and gave tirelessly of himself in the performance of his office. He has left his mark on the Water Department and contributed greatly to the historical heritage of the Town of Braintree for generations to come.

As we near the end result of a two and one half million dollar expansion program authorized by our Town Meeting two years ago, it is appropriate to acknowledge the efforts of our Superintendent William L. Ewing, our Chief Pumping Station Operator Everett Simonds, and our entire staff through whose cooperation and coordination made this program a success.

WATER DEPARTMENT ANNUAL REPORT

I respectfully submit for your consideration the 82nd Annual Report of the Town of Braintree Water Department for the year 1972.

I am pleased to announce that our expansion program is proceeding according to schedule and all improvements at Great Pond Pumping Station and Filtration Plant should be completed in 1973.

Our Chlorination Building, Intake Structure, Coagulating Basin, Settling Basins, Alum Tanks and Wash Water Tank have been completed, plus many piping changes. Our new piping gallery and alterations to our

filters are under construction at the present time. These additions plus the many improvements to our distribution system have resulted in considerable power cost savings during 1972.

We are constantly working toward the day that we will have a sufficient quantity of water to meet the ever increasing demand and the ability to distribute the same. We pumped approximately the same amount of water this year as in 1971. It is difficult to project what our increased demand was this year because it was the wettest year in the history of the weather bureau according to the Blue Hills Observatory.

In August of 1972, the community was shocked by the sudden passing of our beloved commissioner and friend Arthur Whitten. His great service to the community in general and to the Water Department in particular will be sorely missed.

It was necessary to replace Arthur who served as Clerk of the Board and the Water Commissioners recommended to the Board of Selectmen the appointment of Mr. Fred Welsford. Their appointment was an excellent choice as Fred has shown a real interest and desire to participate in the operations of the department. His enthusiasm for solving the profound and intricate problems facing us is valued by the Board of Water Commissioners and myself.

I want to take the opportunity to thank all the Water Department personnel for the outstanding job performance during 1972. With the continued growth of our town, the work load increases and the problems become more numerous and complex and the employees have proved to be most adequate in all phases of their assignments.

I would like to thank Mr. Everett Simonds, our Chief Water Works Engineer, for the excellent manner in which he has coordinated the expansion program of our Pumping Station and Filter Plant with the continuous operation of the Plants during this construction period.

My sincere gratitude and appreciation is expressed by me to the Board of Water Commissioners for the many hours expended on behalf of the Town of Braintree Water Department. Their dedicated service and assistance granted me during the past year certainly deserves recognition.

WASTE DISPOSAL DEPARTMENT

Leo S. Palmer, Superintendent

The refuse received and disposed of at the incinerator during 1972 can be classified as follows:

Total refuse weighed in: 23,467 tons

This includes household refuse collected by South Shore Disposal Co. under contract with the Town: 13,107 tons

The above figures do not include the refuse brought in by private passenger cars and pick up trucks.

Residue disposed of in sanitary landfill (after burning): 6,538 tons

Unburnable metals disposed of: 2,600 tons (estimate)

Revenue

Annual permit fees	\$ 1,330.00
"Seven-day" permit fees	956.00
Incinerator use charges collected from annual permit holders	<u>\$34,280.42</u>
Total Revenues	\$36,566.42

SEWER DEPARTMENT ANNUAL REPORT

I submit herewith my report upon the activities of the Sewer Department for the year ending December, 1972.

NEW CONSTRUCTION:

There were 3.70 miles of new lateral sewers constructed during the year as shown below:

*Denotes sewer construction by private developer under the supervision of the Sewer Department.

Total 1972 Construction:	3.70
Previous Construction:	116.76
Total Construction to date:	120.46

Four (4) contracts awarded in 1971 have been completed, with the exception to the alterations to our Common Street Pumping Station, which is 90% completed.

All of the lateral sewers that money was appropriated for at the Annual Town Meeting are now under construction.

The status of the three (3) contracts awarded this year is as follows:

<u>Contract No.</u>	<u>Dated</u>	<u>Contractor</u>	<u>Amount</u>	<u>Percent Completed</u>
1	June 12, 1972	Capone-Susi-DiMascio	\$275,776.07	60%
2	August 3, 1972	McNeice Corp.	192,167.50	35%
3	October 17, 1972	Lee Electric	16,987.00	10%

The present sewer system can now serve approximately 94% of the buildings in town.

ASSESSMENTS

Sewer assessments amounting to \$110,795.73 were levied against 249 properties during the year.

HOUSE CONNECTIONS

There were 282 sewer connections completed during the year. Twenty-three (23) of the connections were installed by private developers under the supervision of the Sewer Department. Eighty-eight connections were by the Sewer Department employees. One hundred and sixty-seven (167) connections were done by our sewer contractors. On most of the streets where new laterals have been installed during the year nearly everyone has signed an application to connect to the sewer. Bills in the amount of \$155,143.69 were sent out.

There were 6 applications on file at the end of the year.

MAINTENANCE

There were 8 lateral sewer stoppages and 5 main line stoppages. Main line stoppages were due to the removing of sewer manhole covers and filling same with stones, boulders and tree wood. Root growth, grease and foreign

objects were the cause of lateral stoppages. There were 137 stoppages of sewer house connections due to root growths and other objects.

It was also necessary to replace the 36 inch V.C. line at the end of Audubon Avenue that leads into the M.D.C. sewer siphon. This line being 42 years old had a number of cracks in it, thus causing sewer to discharge in the area. These were detected with a T.V. camera.

RECOMMENDATIONS FOR 1973

Because of the number of petitions urgently requesting the need for sewers, the lateral sewers should continue at the accelerated rate of the past years.

The Sewer Commissioners have proposed two (2) Sewer Articles in the 1973 Town Warrant, in addition to the \$400,000.00 for sewer laterals in 1973 and \$200,000.00 for the first 6 months in 1974.

One Article is for an interceptor sewer line in the Pond Meadow area. Starting at a point to an existing 42 inch M.D.C. trunk line running South across the Expressway approximately 2200 feet terminating at Lenox Drive. This sewer line will serve the East end of Plain Street, also Liberty Street from the inter-section of Pearl and Liberty Streets Southerly to the railroad bridge; also Poulos Road. This interceptor line will serve approximately 67 homes.

The Second Article is to set up an Auxiliary generator at the Old Country Way pumping station.

In closing, I would like to express my appreciation for the assistance of the Board of Sewer Commissioners, to the employees of the Department and the assistance from all the Departments of the Town. I personally want to say thanks to Commissioner Herb Albee, who will not seek re-election in 1973. The Department will miss his guidance.

Your Commissioners submit the Annual Report of the Braintree Electric Light Department of the Year ending December 31, 1972.

MANAGER'S REPORT TO THE MUNICIPAL LIGHTING BOARD

Alban G. Spurrell

During 1972 the power industry as a whole maintained its normal rate of growth, which is between 7 & 8 per cent, thereby doubling every ten years.

The Braintree Electric Light Department has experienced a growth of 8% in 1972 over 1971. This growth has occurred in spite of the fact that fuel oil has remained at a very high price and the cost of power rightly reflects this inflated cost of fuel. Fuel cost to generate a kilowatt hour in 1966 and succeeding years is as follows:

1966	0.47¢	per kilowatt hour
1967	0.437¢	" " "
1968	0.427¢	" " "
1969	0.414¢	" " "
1970	0.604¢	" " "
1971	1.060¢	" " "
1972	0.936¢	" " "

While fuel price since 1972 has decreased slightly, it is anticipated that the present oil crisis will result in increased fuel costs during 1973.

POWER SUPPLY

To obtain an adequate, dependable power supply for a Town of Braintree's size under today's operating conditions is a rather complex problem. The Town is not large enough to take advantage of the economies of size in the same manner as the large utilities, and it is too big to continue with small size standard rather inefficient generating units. Good participation in the New England Power Pool, which is very desirable, can be accomplished only with an adequate capacity of efficient units. Bulk power purchases, with no Braintree generation, is not the low cost efficient means by which the Town's power supply can be obtained.

Since its beginning, Braintree Electric Light Department has generated all or the major part of its power requirements. It is one of the very few Massachusetts municipalities now generating power. Most town having Municipal light departments do not have the necessary natural resources to support a generating type operation. These natural resources are, an ample supply of cooling water, proximity to large supplies of fuel, proximity to high voltage transmission lines and a properly located industrial area sufficiently large to install a generating station. Since the quantity of power required by Braintree is reaching substantial proportions, its source, cost and reliability become ever increasing responsibilities of the Electric Light Department.

Since 1893 Braintree has used steam as the main means of generating electricity, using larger and larger units to meet only Braintree's requirements. These units have increased from a 600 Kw unit in the 1920's to a 12,500 Kw unit in 1957 which is the largest unit we have in service today. In recent years the sizes of generating units have changed drastically and the large units 10,000 to 100,000 Kw of a few years ago are now being replaced by 400,000 to 800,000 Kw and larger today. Increasingly larger units have been practical because of lower costs per Kw to install, lower operating costs, lower fuel costs have all added up to a much more efficient operation plus better utilization of space and equipment.

For this reason our study of 1970 (when we recommended that the Town install the largest unit possible) indicated that by the installation of a large single unit Braintree could take advantage of a natural resource which

it has, develop it to its limit reserving sufficient capacity to serve Braintree and sell the remainder to a power deficient area thereby obtaining additional revenue for the Town. This concept is not new and throughout the country several small plants, some smaller than Braintree, have taken advantage of their natural resources and installed units as large as Braintree had proposed.

Town Meeting in 1970 approved the first step of this plan and authorized the Electric Light Department to obtain the necessary legislation. Such legislation was not possible because of the fantastic lobbying by the private power interests.

Efforts to obtain such legislation were again defeated in the same manner in 1971, thereby preventing any municipality from building an efficient generating facility so necessary to the electric power industry and a critical necessity for municipal plants throughout the State.

Realizing that the legislative route was very difficult, if not impossible, Braintree's remaining choice to obtain low cost power before it is too late is to install the largest most efficient unit possible to meet its own power requirements for the next ten years. This route has been very interesting, controversial and with good practical approach and understanding should be successful.

BRAINTREE'S PROPOSAL FOR NEW GENERATION

For many years the electric utility industry has successfully used the steam turbine as the most practical prime mover. This type of unit has been developed in size, dependability and efficiency to the point where further progress depends on factors unknown at this time and almost unforeseeable in the future.

Meeting the rapidly fluctuating utility loads of today requires various types of machines having different types of capabilities. Thus it is for certain types of load a machine designed for base load is necessary in order to obtain maximum efficiency. For changing loads and peaking requirements machines of medium capacity and peaking capabilities are more practical and more effective.

Braintree's minimum load today is 18 MW, by 1975 it should be 23 MW and by 1983 it should be 36 MW or almost our total available generating capacity of today. Minimum load periods exist for approximately one hour in twenty-four possibly once or twice a week but on most normal working days this low value is never reached. Braintree's peak load in December, 1972 was 47 MW and again was for a one hour period.

Planning for future loads should be for a reasonable time. A period too short will be ineffective and too long will be inaccurate. Engineers working in this field are using a ten year period as a practical building program but with increasing building time required, especially on nuclear plants which can take in excess of seven years from start to in-service date, longer forecast periods are under consideration.

In Braintree's case, building to meet a ten year growth appears to be the best planning procedure. The second criterion necessary for good planning is the selection of a unit size meeting standard sizes developed by manufacturers.

Braintree's peak load forecasts up to 1986 are as follows:

1973	50.0 MW	1975	56.6 MW
1974	54.0 MW	1976	59.4 MW

1977	62.3 MW	1982	79.2 MW
1978	65.3 MW	1983	83.1 MW
1979	68.5 MW	1984	87.1 MW
1980	72.0 MW	1985	91.4 MW
1981	72.5 MW	1986	95.8 MW

Braintree's existing generation consists of 43 MW with a total of approximately 4 MW purchased from Maine and Vermont atomic plants for a total available capacity of $43 + 4 = 47$ MW. Participation in the New England Power Pool requires that at least 20% of that capacity be dedicated to reserves which will reduce Braintree's capability to $(47 \times .8) = 37.6$ MW or at the very most 38 MW. Approaching a load of 83 MW in 1983, we will require a capability equal to this 83 MW plus 20% reserves = $83 \times 1.20 = 99.6$ MW roughly 100 MW.

Units at Allen Street even though well maintained are reaching the end of their useful life.

#2 unit is now 40 years old

#1 unit is now 31 years old

#3 unit is now 20 years old

#2 unit and possibly #1 unit should be retired sometime before 1980. When such retirements are made economic conditions at that time will determine the practicability of running #3 unit beyond that date.

I will assume that #3 unit will be available beyond that date. Our capability will then be (based on existing capacity):

Allen Street	10 MW
Potter Station	13 MW
Diesels	5 MW
Maine & Vermont Yankee	
capability	<u>4 MW</u>
	32 MW Total Capability

Braintree's generating capability requirements in ten years will be 100 MW. Braintree's additional capacity to cover this growth will be $(100 - 32) = 68$ MW.

In order to build at a reasonable level and meet Braintree's growth requirements, Braintree Electric Light Department officials decided to request manufacturers' bids on the nearest standard unit that they manufactured in a size of 50 MW or above.

Carefully studying what is happening in the power generation field, we find that for smaller sized installations of 300 MW and below, a very definite trend is now established in the application of combined cycle units. This combined cycle uses the most successful prime mover ever developed for utility purposes -- the steam turbine, with an additional development known as the gas turbine. In this combination, referred to throughout the industry as the "combined cycle" the fuel is consumed in the gas turbine combustors rather than in a boiler. Fuel can consist of gas, kerosine, naptha, #2, #4, #6 or crude oil or combustible products produced from industrial waste oils, or by products of the automobile lubricating oils properly prepared for disposal in this manner.

The gas turbine produces approximately 60-70% of the power available. Exhaust gases from this unit having a temperature in excess of 800 degrees F are passed through a waste heat boiler producing substantial amounts of steam to drive a steam turbine. Some installations are designed to require additional firing in the waste heat boiler, others are designed to operate

without this additional auxiliary firing.

The critical piece of equipment in this entire unit is the gas turbine. Gas turbines have been in operation for well over twenty years all over the world. One of their principal applications has been pumps and pipe lines in remote areas where dependability is essential and maintenance is required to be at a minimum. Gas turbines have been developed for use on aeroplanes and today all jet airplanes use the gas turbine as their source of jet power. Jet aircraft development of the unit in size and performance has forced the power industry to consider this type of unit for many new installations. For well over ten years, the jet engine has been used for power generation and in the last five years utility companies all over the world have added large capacities of gas turbine units for peaking and intermediate power supply. Con Edison of New York, United Illuminating of Hartford, Conn. have installed well over 500 MW of gas turbine capability. Boston Edison Company, New England Power Company also have this type of capacity. Holyoke Municipal Plant has had a unit of this type in service for over ten years.

With this background the gas turbine is now receiving considerable attention and is being developed by several manufacturers to take its place in a more substantial manner in the utility business.

Efficiencies of the unit itself are not particularly attractive for generation of large blocks of base load power but by capturing the rejected heat generated by the gas turbine to create steam for a standard steam turbine the combination becomes highly efficient matching the capabilities of the utilities most effective prime mover -- the large steam turbine.

In studying the application of this unit to the Braintree's system, consideration must be given to several very important requirements:

- (a) relative lost cost
- (b) short time from award of contract to in-service date
- (c) high efficiency
- (d) dependability
- (e) ability to burn a variety of fuels
- (f) low environmental thermal impact
- (g) low air pollution impact
- (h) short start up and shut down time
- (i) lowest cost for such starts and stops
- (j) high availability
- (k) reasonable maintenance costs

Taking these items one at a time Braintree has compiled the following information:

(a) the cost of a gas turbine installation is between 60 to 80% less costly than a similar steam installation depending on the size of unit considered.

(b) Any steam unit designed for utility purposes, which must be fabricated to a large extent on the premises, will take from three to five years from award of contract. The combined cycle installation, being a factory assembled unit, requires minor fabrication on the premises and will be in service in 18 months to two years from award of contract.

(c) The combined cycle efficiencies guaranteed by bidders is from 8100 BTU to 8803 BTU per Kwh. The maximum efficiency anticipated from a steam unit of the same capability would be 9700 BTU per Kwh. The

efficiencies of the combined cycle will vary anywhere from 10 to 16% better than a comparable steam unit.

(d) The only unit in the combined cycle not having long years of continuous service record on utility service is the gas turbine. Manufacturers have developed in this unit a relatively easy unit to dismantle and re-assemble. Some of the manufacturers set up a program whereby the unit can be completely replaced with a rental unit during repairs. Changing a unit takes less than 24 hours. Other manufacturers have scheduled outage periods and to date performance has indicated the machine outage time will be less than that of the standard steam turbine.

(e) As stated above in this report, the unit will burn gas, kerosine, naptha, #2, #4, #6 or crude oil or prepared waste oil products.

(f) Since the gas turbine produces 60 to 60% of the output the remaining 30 to 40% is produced by steam. Steam production requires thermal heat rejection and the heat rejection by this combined cycle will be 30 to 50% that of a comparable size conventional steam unit.

(g) Fuel is consumed in the combined cycle under better conditions than that normally consumed in a boiler because the gas turbine requires substantially greater amounts of air for its operation than is necessary for combustion. Under the excess air operation combustion is more complete. Other by products of combustion can be controlled in the gas turbine in the same manner as in a boiler. The net result is better air pollution control.

(h) An efficient steam turbine of 50 MW or more will require 24 hours to full load from a cold start and two to three hours from a warm start. A combined cycle on the other hand can be up to full load in slightly over one hour with shutdown time less than 30 minutes.

(i) Fuel consumed for short start up and shut down time will be less than that required for the much longer start up and shut down time required by a conventional steam unit.

(j) All components of the combined cycle have well known records of availability and operation. The gas turbine, other than scheduled outage time for repairs, has established an excellent record of availability. Outside of the normal control problems we have no reason to anticipate outage time or unavailability of the unit other than normal scheduled repairs. Problems will occur but we do not feel that these will exceed those normally encountered in operating other types of turbine units.

(k) Bids received required quotes on maintenance costs. If these costs are realistic, and we have no reason to feel that they are not, the maintenance costs on the combined cycle unit should be substantially less than the units used for peaking service and within reasonable limits of costs for comparable steam turbine, boiler combinations in use today.

Evaluation of the combined cycle and its status in the utility industry today more than justifies Braintree taking the next step and find out as much as possible about this latest development in the power industry. Bid Specifications and invitations were issued late in 1972 and opened on December 21, 1972. These bids called for quotations on base load rated machines only, with the unit sizes not smaller than 50 MW and based on the nearest manufacturer's standard to that unit. Bids were received from:

General Electric Company
Turbo-Power and Marine Systems, Inc.
Turbodyne Corporation

These machines were rated as follows:

General Electric Company	80,100 Kw.	-	\$7,866,475	\$98.20	\$/Kw
Turbo Power and Marine Systems	78,350 "	-	\$6,956,500	\$88.78	" "
Turbodyne Corporation	86,467 "	-	\$6,289,460	\$72.74	" "

The machines have been developed by the different manufacturers using different engineering concepts and will require considerable evaluation before a recommendation can be made.

As a brief description of the bids received, General Electric Company has bid on a heavy construction industrial unit that once installed will remain in place and maintenance repairs made on site. General Electric has recently completed a forty million dollar plant in North Carolina to build this unit exclusively which is operating full time with a large back log of work. Generators and steam turbines for this combined cycle are built in Lynn, Mass. and at the present time Lynn has over one hundred fifteen million dollars worth of this equipment under construction for various utilities throughout the country.

Turbo Power and Marine Systems, Inc. is a subsidiary of the United Aircraft Corporation a producer of Pratt & Whitney aircraft engines. The unit they offer is a re-development or adaptation and redesign of their well proven air craft jet engine for power plant work. They have produced many thousands of this type engine and substantial peaking capacity is installed in the major utility companies throughout the nation.

Turbodyne Corporation is possibly the company with most gas turbine experience in the world. They are the American counterpart of Brown-Boveri which has produced the heavy industrial type gas turbine for well over twenty years.

As I see the picture, the unit proposed by any of these firms would be acceptable for Braintree's needs but an engineering evaluation of the proposals will serve to determine which proposal is most acceptable to Braintree.

Braintree Electric Light Department consultants, R. W. Beck and Associates, have carefully studied the application of a combined cycle to the Braintree system. At first it appeared that Braintree's request for a base load unit of this type, rather than a peaking unit, was something that the manufacturers would be unwilling or hesitant to construct. However, all the manufacturers involved have clearly demonstrated that they are producing units in great volume that are capable of meeting Braintree's requirements of low capacity high efficiency, low cost and early installation date. If Braintree approves this installation, we should have a unit ready to serve the Town by the latter part of 1974 or early 1975.

DIESEL GENERATORS

While discussing generation, I would be remiss if I did not comment on our diesel powered units. These units, installed in 1963, have a total capacity of 5 MW and were purchased to operate as peaking units. They were located at Plain Street as this is almost the load center of our system and at that time was extremely vulnerable to emergency and total outage under certain operating conditions.

With the installation of a Boston Edison 115 KV intertie and an additional 15 KV feeder from Allen Street to Plain Street, the importance of the diesels at this location has decreased considerably. Use of the units was originally restricted to approximately 300 hours a year (most of which time was accumulated during overhaul periods) and no problem was apparent.

The New England Power Exchange was started June, 1970 and Braintree became a participant. This obligated all members (or participants) to place all available and usable capacity under the direction of the Nepex dispatch. For some reason the Nepex dispatcher loves to operate diesel units as our use of the diesel units under Nepex dispatch jumped from 300 hours per year to 3000 hours a year. We have had strenuous objection from the neighbors in this area and have discussed this problem with the State Board of Health running complete tests as to noise, vibration and air pollution. Area residents have also been present at a Commissioners' meeting to protest the use of the diesels at that location, and requested their removal. The Commissioners agreed to limit the diesels to emergency use and move them as early as possible, hopefully within a year. The pool dispatcher co-operated with us and from April to December the diesel operation was minimal. However, going beyond December, 1972, during the second week of January, 1973 the New England area, because of extremely cold weather experienced its heaviest demand for power. The Pool dispatcher quoting emergency conditions, requested that the diesels be operated. One day they operated from 9 A.M. to 7 P.M. and the next day from 9 A.M. to 5 P.M. After some very strenuous objection from the area residents, I requested Nepex not to use these units. In the meantime a check with the State Board of Health indicated that our co-operation in restricted use for a long period was appreciated and emergency use for one or two days would not be considered a violation of our agreement.

At a later Commissioners' meeting, a vote of the Board restricts use of the diesels except for an emergency within the Town of Braintree. Under these directions, we are forced to purchase replacing capacity which will be at the rate of \$1.80 per Kw. or \$9,000.00 per month.

Development of Potter Station, for additional generation is the appropriate time to relocate the diesel units, and planning is incorporated in our layout for proposed generation to include removal of the diesels from Plain Street. Hopefully, if our proposed planning is successful, the diesels should be relocated before the end of 1973.

DISTRIBUTION

Our distribution studies in the late fifties and early sixties showed that our distribution system built around 2300/4160 volts would be totally inadequate to handle the loads forecast for the middle sixties and it would be catastrophic to attempt to extend such a system into the early seventies. An evaluation of the efficient method by which the Town could be served clearly indicated that the use of higher voltages was the correct answer. This required planning and building a new distribution system over the one already existing and removal of the old system. This program was initiated in 1964 and our first attempts at higher voltage gave us some problems. The accomplishments far exceed the problems and in a relatively short time the new system began to prove its worth. This re-construction has continued since 1964 until today our entire Town is slightly over 90% complete. In 1960 Braintree's peak load was 22.5 MW and 81,295,884 Kwh. were delivered to Braintree's customers. In 1972 Braintree's peak load was 47 MW and 238,760,990 Kwh. were delivered to Braintree's customers.

Distribution losses in 1960 were 10,035,928 Kwh. or 12.34%.

Distribution losses in 1972 were 10,241,302 Kwh. or 4.28%.

Had our losses in 1972 equalled those of 1960 we would have had 238,760,990 x .1234 = 29,463,000 Kwh. losses. This would have been 36.24% of our total sales in 1960.

1972 savings because of this new distribution system can be shown as follows:

1972 system requirements based on 1960 losses =

(1972 total sales + losses at 12.34%)

$238,760,990 + 29,463,000 = 268,223,990$

1972 1972 system actual requirements

(1972 sales + actual losses)

$238,494,990 + 10,241,302 = 249,002,292$

19,221,698 Kwh.

With Braintree's average production cost in 1972 at 1.265¢/Kwh. this would amount to $19,221,698 \times .01265 = \$243,154$.

\$243,154 represents the yearly savings gained by the new distribution system. This new construction can easily be justified by those substantial savings which are passed along to the customers through our ability to retain lower power rates.

TRANSMISSION SYSTEM

Looking at our distribution system in 1960 and doing something about it has resulted in a real workable dependable system that efficiently delivers today's loads. Planning ten years from now we will be delivering in 1982 421,000.000 Kwh. rather than the 238,760,990 Kwh. delivered in 1972. Our newly constructed distribution system will be able to efficiently deliver this power to our customers provided we update it and make the necessary additions and changes to do this amount of work. Power must be delivered at a higher voltage to strategic locations and there stepped down to the distribution voltage for the short trip from delivery point to the consumers' premises.

This is the method Braintree proposes as an efficient backbone to our distribution system. The existing 115 KV line from Boston Edison system at Plain Street is the first step in this program. Braintree proposes to work towards a second 115 KV interconnection with Boston Edison Company and through their system to the New England Pool. This interconnection should be made at Braintree's Norton P. Potter Station and should extend to a sub-station at a location to be selected in the North Braintree area. From there it should continue through Braintree to tie in at Plain Street sub-station. All of this 115 KV construction is proposed to be installed underground and additional sub-station or stations will be completely enclosed. In order to efficiently serve Braintree's growing loads, planning for this program should start in the immediate future. Such construction will be necessary whether Potter Station is expanded as a generating facility or not. Equipment delivery time is becoming more critical and costs are reflecting the influence of inflation.

OFFICE FACILITIES

The figures quoted above give some concept of the Town's rapid growth. Present construction figures indicate an even more rapid growth in the immediate future. The office facilities located at 44 Allen Street were installed in 1932 to handle the work load at that time and for a reasonable foreseeable future. The amount of office work necessary to cope with today's requirements makes these office facilities pitifully inadequate for an operation of the present size. I respectfully request that authorization and direction be given to proceed with some plans to overcome this severe handicap.

It is with fond memory that I place the name of Shelley A. Neal in this report. He was active on the Municipal Light Board in 1945 when I accepted the Manager's position. He served from 1938 until his retirement

from the Board in 1957, offering assistance and advice as only he alone could. His long, active and productive life has left an enviable, indelible mark in the history of Braintree.

To the Selectmen, Municipal Light Board, Town Officials and Committees who have assisted me during this year, I extend my grateful appreciation.

To the Braintree Electric Light Department employees who have so ably assisted me in the operation, development and expansion of the Braintree system, I express my sincere thanks.

ENGINEERING DEPARTMENT ANNUAL REPORT

1972

Each year the continually rising population growth and expanding development in town is accompanied by an increasing number of requests for information at this office, some by telephone, others personally presented from across the counter, and a few received by mail. As public servants we feel that these services be provided promptly and the time required borrowed from other clerical and engineering duties of the department, including the following:

FOR THE SELECTMEN

Layout plans and abutter lists were prepared for public hearing and approval of the following streets prior to submission to Town Meeting for acceptance:

- Portion of Sheraton Ave. - 436'
- Portion of Audubon Ave. - 140'
- Portion of Logan Road - 375'
- Portion of Mayflower Road - 1070'
- Margaret Drive - 1090'
- Portion of Wildwood Ave. - 884'
- Revised layout of portion of Alida Rd., previously approved, 1916'
- Revised layout of Richard Road, previously approved - 2728'

The above layouts were accepted.

Layouts of Logan Drive, Kirby St. and Kensington St. were approved after hearing, but Town Meeting acceptance indefinitely postponed. For each accepted street a detailed description was also prepared for the Selectmen's "order of taking" to be recorded with layout at the Registry of Deeds.

Sidewalk betterment plan was prepared for Blake Road, approved by Selectmen and accepted by Town Meeting.

Betterment proposals for a portion of Holmes St. and a portion of Myrtle Ave. were indefinitely postponed by Town Meeting.

Betterment assessments were calculated and submitted for Blake Rd., Norfolk Rd., Logan Rd. and Glenrose Ave.

A plan with accompanying description was prepared for approval and recording to show a drainage easement required from Adams St. to the Monatiquot River across lands of Sweezey and Graziano.

Street and sidewalk construction required field survey layouts and elevations, followed by staking of alignment and profile grades on the following:

- Glenrose Ave. - portion - 2800' street and sidewalk
- Norfolk Rd. - portion - 533' street and sidewalk
- Logan Rd. - portion - 669' street and sidewalk
- Blake Rd. - 600' sidewalk only (2 sides)
- Commercial St. - portion - 1340'+ sidewalk only (1 side)
- Wildwood Ave. - portion - 884' sidewalk only (1 side)

The above work was done by the Highway Department.

The drain easement from Adams St. to the Monatiquot River was staked for alignment and pipe grades, with the installation of pipe by the Highway Department.

Field work on Pilgrim Road (street and sidewalks) and Mayflower Rd. (sidewalks) was by contract with Old Colony Construction Company.

Plans of four rezoned area were prepared and submitted to the Attorney General for approval. In the case of Messina's Monatiquot Village Apartments site development and rezoning, Mr. Gordon Gray of this department was subpoenaed to Land Court and gave testimony concerning Town records dealing with the history of the "Pond Area" ownership. At issue was the status of this area in the rezoning article approved by Town Meeting. No decision has yet been received.

Plans and descriptions were prepared for recording to show the transfer of one lot from C. Healy Co. and one from Thelma Dolloff to the Town Cemetery Commission as approved at Town Meeting. Also a plan to show land being exchanged between the Town and the late Mr. Gilbert Bean.

Conferences were held with Mr. Zottoli on the donation of land by him to the Town.

A plan showing accepted public streets in town was prepared for the Department of Public Works - Planning Dept. - at their request.

Other miscellaneous work included lists of abutters for hearings by the Selectmen on license applications, field layout of street lines at the request of abutters or Town departments, investigations and recommendations concerning drainage problems at Garden Park, Faxon Park and at several individual properties, marking of limits for solicitors at twelve polling places for Town, State and Federal elections and primaries, exchanging information with other towns, private engineers, other Town departments and Committees, preparation of budget, annual report, etc.

For the SCHOOL DEPARTMENT field layouts were made at the new High School for three football fields, two soccer fields and two field hockey areas.

For the ASSESSORS field measurements were made of new buildings, structures and additions and the location of each determined. This information is then plotted on Assessors' plans to bring them up to date. Also, thirty plans were received from the Registry of Deeds and Land Court as well as 825 deed and certificate copies. Each of these required checking and revision of lot lines on Assessors' plans to ensure correct tax billing as well as again up-dating plans. The above plans include sub-division plans as approved by the Planning Board. The registering of land transfers requires either Planning Board approval for sub-divisions or a signature by designated Planning Board agent certifying that the plan does not come under jurisdiction of the Sub-division Control Regulations. A large number of these were checked before signature by the designated Agent - Mr. John F. Fehan.

For the PLANNING BOARD the subdivision site work done by recently appointed Engineer Inspector Mr. Richard McDermott, and his successor, Mr. Gilbert Corcoran, along with close attention by Mr. Fehan and members of the Board, has convinced developers that the subdivision regulations are to be closely followed and this has been of tremendous help to this and other concerned departments. The following developments were submitted, inspected, hearings held and reports made to the Board:

Leahy Subdivision - 1661 Liberty St. - Not approved.
Frankel Subdivision - 1619-1631 Liberty St. - Not approved.
Holder Subdivision - Off Doris Road - Pending.
Carlino Subdivision - Beyond Ida Rd. off Pond St. - Not approved.
William Parker Subdivision - West St. at 5 Corners - Pending.
Drangone Subdivision - Off Longwood Ave. - Not approved.
Bertoni Subdivision - Longwood-Blanchare Area - Not approved.
Poulos Subdivision - Pearl & Plain Sts. - Pending.

Older subdivisions still to be completed are the Poulos at Old Country Way, Iantosca at Evergreen - Grove Circle, Downey at Powder Hill Drive, Downey at Summit Ridge Drive.

Installation of stone bounds in the Maplewood development was completed and the Survey Committee so notified.

Site information was provided for the Peterson Pool Committee after field surveys.

Close relations continue with all departments and committees and for this we extend our appreciation.

CONSERVATION COMMISSION ANNUAL REPORT

1972

The Braintree Conservation Commission held regular meetings once a month at the Braintree Town Hall. Special Hatch Act or Chapter 131 - Section 40 Hearings were legally posted in the local newspaper and held on the designated dates.

During the first few months of the year The Smelt Brook Conservation and Recreation District project required the attendance of Chairman Kenneth Sullivan at many extra meetings with the Town of Weymouth Conservation Board members and the County Commissioners. Action by the Town meeting in appropriating funds for Braintree's share of the project is pending.

Early in 1972, the responsibility for conducting the Hatch Act Hearings was turned over to the Conservation Commission by the State Legislature. As a result, prior to these Hearings, Chairman Sullivan and members made joint (or individual) field trips to acquaint themselves with the acreage in question. Nine such hearings, attended by the Public as well as the petitioners, were held.

1972 REPORT - BRAINTREE PARK DEPARTMENT

Playgrounds, school fields and waterfront areas were very active this year. Every year we have an increase in outdoor athletics in the school system as well as the expansion of both the Little League and Men's and Women's Slush Leagues. Some of the Park and School Department fields used for school athletic programs are the new Braintree High School, Hollis Field, East Junior High, South Junior High, Daily Field, Adams Playground, French Common, several elementary school fields and the Braintree Municipal Golf Course. The athletic fields will be used by the schools during the day and by all other leagues after 6:00 p.m. This heavy use requires a good maintenance program to try to keep the fields in playable condition.

The new Braintree High School thirty-five-acre athletic field complex was used for school fall sports this year. The new fields to be maintained by the Park Department are as follows: three regulation baseball fields, one football field encircled by a one-quarter-mile rubber-base track, and one practice football field, one regulation soccer field and a practice field, one regulation field hockey field and practice fields. In the spring these fields are used for softball. There are four backstops in this area, also a cross country course, six tennis courts and basketball courts. The town use of these new fields will help in scheduling spring and summer after 6:00 p.m. leagues and Saturday and Sunday scheduled games such as the Legion Baseball, Babe Ruth and Men's and Women's Slush League.

The opening of the new Braintree High School athletic fields has not lessened the maintenance of Hollis field. Braintree High football team will be playing all home games on this field because of the stadium seating capacity. Both the Central Junior High and Hollis Elementary School use the area, along with the Slush League and the Babe Ruth League.

Vandalism plays a big part in Park maintenance, both costwise and in unnecessary labor used. This year we had two life guard boats broken beyond repair, and another boat used by life guards and also for chlorinating was stolen from Sunset Lake. Over 400 feet of fencing was pulled down and bent, and top rails were taken at several parks including Watson Park, Swift's Beach, Monatiquot School and Lakeside. Toilets and windows were broken at both Swift's Beach and Sunset Lake, as well as damage to tennis nets and posts and playground equipment.

The Park Commission through the Hollis Fund Commission had the Braintree Electric Light Department install night tennis lights at both Hollis Field's four tennis courts and the two tennis courts at French's Common. This allowed adults who work during the day a chance to play tennis at night. The lights during the winter months are used by neighborhood boys and girls who like to play street hockey.

The Park Commissioners are grateful to the Hollis Fund Commissioners and the Town Departments who helped make 1972 a successful season.

Liberty Street School yard was improved this past summer. The Park Department brought the school yard up to grade, loamed and sodded a small baseball field, installed underground water system, 300 feet of fencing in the outfield, installed a baseball backstop and two basketball backboards. The department also improved the play yard at the Ross School. A baseball field was built in the rear of the school. Weeds were killed on the asphalt play area in the rear of the school.

Board of Parks & Playgrounds Commissioners: James E. Sullivan, Chairman; James J. Galvin, Vice Chairman; H. Frederick Herget; Lawrence T. Gingrow; Ralph W. Bucknam; Wayne Delano; Richard G. Parsons.

YOUTH SERVICES AND RECREATION REPORT - 1972

William Hedlund, Director

I respectfully submit to the citizens of Braintree my second annual report of progress regarding community sponsored leisure time programming. In the eighteen months existence of year-round recreation, more townspeople have participated with more activities in the town than ever before. Although our growth potential has only been developed minimally, the years ahead lead us to expect that a viable recreation program allows for every interested citizen to achieve an outlet for stored up energy while participating in a hobby or favorite sporting activity.

With the excellent cooperation of the Puritan Bridge Club at the corner of Commercial and Faxon Streets, our Senior Citizens have been participating weekly learning how to play duplicate contract bridge games and tournaments. Mr. George Cain is the volunteer bridge instructor and he has been extremely patient while working with more than thirty participants weekly.

The excellent cooperation received at the Weymouth Landing Recreation Center has allowed us to organize two bowling leagues during the year. Reduced costs were offered by Mr. Joseph Manning, the owner, and over eighty boys and girls took part in a bowling activity. Trophies donated by the bowling alley were given at the end of the seasons.

Adult programs flourished during 1972 with tennis lessons being the most popular activity. Over four-hundred men and women participated in beginner and advanced beginner classes during the Spring and the Summer at one of our lighted tennis court areas.

Street Hockey continues to be the largest league of its kind with over eight-hundred boys and girls playing on fifty-eight teams at the start of the 1972-1973 season. At the end of the 1971-1972 season, two champions were finally decided. They were:

Junior Division - Dr. Eugene Tyrrell, Coach
Senior Division - Mrs. Gertrude Brune, Coach.

Awareness of the fact that a Community Program Center located somewhere in a centrally situated area would be utilized extensively, the idea to acquire the use of the Perkins School building had been one proposal not yet decided upon at the end of 1972. Presently considerable use of our school facilities to conduct our indoor programs has been met with tremendous success due to the fine cooperation of the school administration and personnel.

Other programs offered during 1972 included baton classes, Funtime Gymnastics, guitar lessons, a musical production "Jesus Christ Superstar" and "Truth of Truths", a high school summer basketball league, a competitive swimming team, evening soccer, adult recreation, men's basketball league, handicapped children's bowling, a national Punt, Pass and Kick competition, junior girls evening softball league and a comedy film night.

Although we have succeeded in meeting some of the program needs in the community, 1973 planning will allow for an even greater and more diversified year of available activities.

I wish to take this opportunity to express my sincere gratitude to the Board of Parks and Playgrounds Commissioners whose guidance, support, insight and cooperation has made my job much easier than it could be. Their unselfish time to allow for proper planning and implementation of our new activities becomes more and more obvious. Without their dedication, recreation would still be an idea instead of an asset to our community.

Charles Abell, with his very cooperative labor force, has aided my efforts immeasurably. Last minute requests to prepare an area or to deliver supportive equipment have been met with true professionalism.

SUMMER ORGANIZED PLAY REPORT - 1972

Yours Parks and Playgrounds Commissioner's recreation program for the summertime included the following:

- Eight week playground program at sixteen different locations. A re-opening of the Penniman School playground occurred last summer with tremendous success.
- Ten week aquatic program at Sunset Lake, fresh water, and Swift's Beach, salt water. Over seven hundred boys and girls successfully completed their Red Cross swimming requirements during the season.
- Six organized trips throughout New England for our Senior Citizens.
- A handicapped children's day camp at the Archie Morrison Elementary School for eight weeks.

Playground Program

The sixteen playgrounds opened on June 26 and operated Monday through Friday until August 18. One male and one female instructor was assigned to each area to supervise and instruct the different activities. A girls' kickball league was one of the new programs offered. The arts and crafts program was again an overwhelming success during the summer with many new crafts offered. At the end of the season, a display window was set up through the courtesy of the Diaute Drug Store in South Braintree Square. Once again, a very successful field day was offered to finalize the summer activities.

Swimming Program

Braintree's two swimming areas, Sunset Lake and Swift's Beach, were staffed by ten certified National Red Cross Water Safety Instructors. The Park Department was a recipient of two Red Cross Aquatic School scholarships through the fine efforts of the local Quincy Red Cross Chapter. Parking stickers were sold at both areas and tags were sold at Sunset Lake. The following was deposited with the Town Treasurer's Office:

Parking Stickers and Tags: \$2,059.80

Extensive new programming during the summer under the leadership of the Town Meeting created position of Waterfront Supervisor proved very successful. Slim-Swim programs, toddlers' classes, teen classes, intra-

WINTER AT SUNSET LAKE

FAMILY DAY AT SWIFTS BEACH

town competitive swimming meets, and a first aid course were some new activities offered at our waterfronts. Purchase of water polo nets during the summer allowed for the introduction of a new and popular activity at Sunset Lake.

Special Children's Day Camp

Three separate classes were again conducted daily at the Archie Morrison Elementary school grounds from June 26 through August 18. The use of a bus leaser for the Day Camp by the Park Commission proved to be an invaluable asset to the campers making them mobile at any time to pick up and travel when the urge arose. Total enrollment in the Day Camp was twenty-two, an increase of close to a dozen campers over the previous year.

Special activities for the school age retarded children, the emotionally disturbed and the pre-school retarded children were offered. Trips to Boston Common, Stoneham Zoo, Nantasket Beach, Bridgewater State Farm, Fenway Park, the Prudential Center, Logan Airport and the Blue Hills Trailside Museum were some of the places visited. Other regular activities were weekly bowling, daily swimming, daily physical exercise, arts and crafts, and playground games, all of which kept the children very busy.

MUNICIPAL GOLF COURSE ANNUAL REPORT

The town of Braintree purchased our original 9-hole golf course in 1955. In 1971, the Park Commission opened our new 18-hole course to play. The second year of play the course grossed \$84,500.00.

1972 was the wettest year in local history, and not a good year for the weekend golfer. All municipal golf courses depend on outside or transit trade to keep their revenue up. If the weather is bad the outside player will not play. During this golf season the South Shore area had twenty-two rainy weekends; the rainfall had exceeded the average for several months. Our golf course playing rates are competitive with outhur courses. Townspeople, senior citizens, and juniors pay a fair rate for golf course privileges. During the early part of November we had an equipment bridge washed out on the 6th fairway because of heavy rainfall and the height of the water in the swamp in the area of the Richardi Reservoir. This bridge had to be rebuilt because of the golf course layout. Without the bridge play could not proceed to the next two holes.

The golf Course Operating Committee made a survey of the golf course this year. The committee recommended a Pencross (Bent) grass nursery, Marion bluegrass nursery for tees, increased fertilizer program, improvement of sand traps, general beautification of entire golf course, tree planting to replace trees that have died in the past three years due to change in water table.

After play ended this fall the golf course labor force dug 1800 feet of trenching on several fairways: the second, fourth, and ninth. The trench was dug out with our backhoe, using a stone base, orangeburg pipe, and stone cover. These trenches will improve play during and after heavy rain storms in the future.

Members of the Golf Course Operating Committee: Roger W. Arnold, Chairman; C. Roger Barry; Robert M. Pickett; Donald J. Laing; H. Frederick Herget; Ralph W. Bucknam.

ANNUAL REPORT OF THE BOARD OF HEALTH - 1972

1972 was a year of great change and progress for the Braintree Board of Health. It was also a year of decisions which affected the entire community and set precedents for the entire state.

In early January Anthony Sabino, M.D., who has been on our Board for five years disclosed he would not be a candidate for re-election in March. Of the two eventual candidates, Gerard A. Jernegan, D.M.D., a dentist won the seat defeating Daniel Lauria a Real Estate operator.

Thomas A. Corcoran was elected chairman beginning his third year on the Board. Gerard A. Jernegan, D.M.D. was elected clerk. The third member was Joseph H. Juster who had been the previous chairman.

At the outset we decided that 1972 would be a year of progress with austerity for the Board of Health.

The first order of business on the new chairman's agenda was to seek the support of the Board in doubling the number of regular meetings and to schedule them in the evening instead of the afternoons which had been the tradition. Subsequently the result was meetings at 5:00 p.m. on the second Monday of each month and at 7:00 p.m. on the third Monday of each month.

In order to more carefully control the \$50,000+ budget of the Health Department the Board instituted another important new policy, that being written reporting of monthly activities from persons receiving money through the department. We now receive formal reports in writing from the Director of Public Health, the Plumbing and Gas Inspector, the Disposer of Dead Animals, the Animal and Meat Inspector, the Braintree Visiting Nurses' Association, the Monatiquot River Study Committee and the Chafe Pest Control Company. In this way we have a permanent record of services to the Town and a basis for cutting costs and establishing future budgets. This program has worked both to the benefit of Braintree, the Department and the persons submitting reports.

We established new policies relative to the handling of plumbing and gas permits which have saved us both time and money.

Through the year we have continued to oversee the Monatiquot River Study Committee and have been able to get the assistance of the laboratories at MIT. The study continues but final results will be some time in coming.

In April we received word from the State Department of Public Health indicating they no longer felt compulsory vaccination for Smallpox was necessary. It is refreshing to note that this is another disease that is quite close to eradication in this country. However, the Braintree Board of Health still recommends vaccination against Smallpox for Children and foreign travel as a safety precaution.

We accepted control of the old Police patrol wagon in April. Since that time we have loaned it for the use of the new Dog Officer and the Monatiquot River Study Committee. In the future we see it being of benefit to all the town's residents under the Recreation Department. We are taking steps to make it available to them.

Also during April we became aware that shredded automobiles were being used as a filling material by the contractors in Braintree. Since that time, with the help of the Department of Public Health and the Department of Natural Resources we have stopped this dumping in our Town.

We are quite proud to be the first Board of Health in the Commonwealth to publish a newsletter between the Health Department and our food Service licensees. We call our newsletter "Article 10 1/2". Article Ten is the part of the State Sanitary Code covering restaurant operations and we picture our newsletter as an extension of this code. We write about good sanitation, new health measures, new equipment, emergency situations and anything else related to our work. The newsletter is totally funded by the restaurants at no cost to the taxpayers. In Braintree we have an unusually high number of food serving establishments - 109. Our newsletter 10 1/2 is hopefully to ward off the extra expense to the town of adding an additional inspector of eating places. It is still too early to determine if we have been successful.

In May we earnestly supported the Braintree Visiting Nurses in their geriatric nutrition clinics. They undertook the program themselves and though it is in its infancy, we feel that our older citizens will be able to live healthier lives when they are aware of their own nutritional needs. The biggest problem is with the senior citizen who lives alone. None of us are really inclined to prepare well balanced meals just for ourselves. We hope to be able to report progress in this area.

Braintree was fortunate that the Jaycees undertook a rabies immunization clinic for dogs. We supported their efforts and we thank them.

A problem that also cropped up in the Spring was Pediculosis in our school system (head lice). With the help of the school nurses and the Braintree Visiting Nurses we believe we were able to keep it under control.

May 15th marked a major milestone for our town. On that date your Board of Health ordered the fluoride in our water supply raised to the optimum level of one part per million. Dr. Jernegan was instrumental in this action. His work in bringing the true facts on fluoridation to the people was culminated in the positive vote at the November election. We hope to be able to have the chemical introduced into the system by mid summer of 1973.

We were able to work closely with the Waste Disposal Department in the treatment of the residue from our incinerator and with the money appropriated to us by the November Special Town Meeting for testing, we anticipate receiving a variance from the State which will be marked by a reduction in the amount of fill we have to use at the incinerator. When the results are in we will be able to move on this.

During the Spring the town was most fortunate to have an Amblyopia Detection Screening co-sponsored by the Braintree Lions Club and the Braintree Jaycees. The result was a discovery of 5% of children's eyes tested needing treatment. The taxpayers were not asked for any money for this but were the beneficiaries.

With the summer's swimming program underway we initiated our annual water testing programs at Sunset Lake and Swift's Beach. We are happy to report that all through the season our water maintained a satisfactory quality for swimming.

We continued in 1972 to make precedent setting decisions regarding massage parlors in Braintree. As the State has no regulations in this area we designed our own sets of rules. Our Board votes were split many times on this matter. We spent some days in Superior Court during litigation on a matter relative to the massage parlor in Braintree. At all times we received the very competent assistance of Dace J. Moore our Town Counsel. Some things are still pending on this matter.

Mrs. Rosemary D. Long, our Principal Clerk, is on a leave of absence due to illness. Mrs. Nicolina P. Geso is presently our temporary Principal Clerk. We appointed her temporary Principal Clerk in October and reappointed her in December consistent with Mrs. Long's absence.

We read with interest the September bulletin from the State regarding an anticipated flu epidemic to take place in December. We took steps to establish a vaccine clinic to prevent it. However, after receiving the professional advice of the physicians in Braintree we decided not to proceed. We try to seek our doctors' recommendations in areas such as this and we are delighted to note that they are most cooperative in providing it. We thank them for their help.

In September we took immediate action to alleviate problems brought about by the now infamous "Red Tide". In a matter of 24 hours we were able to visit each eating establishment and market in Braintree three times so as to be quite sure no tainted shellfish would be sold. We take this opportunity to thank Frank Cullen, Director of Public Health in Braintree, Bernard Keith our Plumbing Inspector, William Rizzo, Braintree's Meat Inspector and Chief John Polio, Braintree Police Department for the efforts to prevent a Red Tide tragedy in Braintree. We don't believe any other Health Department in the Commonwealth was as well organized to respond in this emergency during these critical days.

On November 1, 1972 the Braintree Lions Club made free eye testing for Glaucoma available to all Braintree residents over 40 years of age. We supported them in this work which resulted in positive tests in 12% of all people tested. The national average is 5% so this points out the service to the community that the Lions have performed regarding the saving of eyesight. We are helping them make sure that these patients consult ophthalmologists. The Lions paid all costs for the eye tests which amounted to about \$800.

Through the Fall we handled our routine business which included making our 1973 budget. We have asked for an increase of about \$10,000, mostly to finance new state recommended programs. We did however deny new requests for \$36,000 over last year. Those were \$10,000 requested by South Shore Mental Health Association, \$12,000 by Archbishop Williams High School for a public health nurse and \$4,200 from the Quincy Detoxification Center for the treatment of alcoholics. We did not question the need for these programs but merely our ability to pay for them at this time. We are changing our policies on pest control which saves the town about \$1,000. As our dump is now closed we do not feel the need for the expenditures of years past.

Individually, and as a Board, we have taken more time in 1972 to work for Braintree and the best interests of its people. We are always open to your comments and suggestions and make ourselves available to you.

Below are some statistics we have compiled which you will find interesting.

REPORT OF THE BOARD OF ASSESSORS FOR 1972

J. Warren Cuff, Chairman

Calvin E. Young, Clerk

Joseph C. Kazanowski, Member

The Board of Assessors met on March 21, 1972, and organized with Mr. J. Warren Cuff as Chairman and Calvin E. Young as Clerk. The 1972 Tax Rate of \$101.00 per thousand was set on July 25, 1972, and approved by the Department of Corporations and Taxation the same day.

On May 25, 1972, the Board of Assessors attended Norfolk Superior Court held at Dedham, and a decree was issued that the Town of Braintree be revalued.

On July 17, 1972, at a special Town Meeting, the sum of \$100,000 was appropriated for a revaluation the Town of Braintree.

On September 28, 1972, the Board of Assessors voted to award the contract for revaluation of the Town of Braintree to the firm of Whipple, Magane and Darcy, and finally on December 11, 1972, the Board of Assessors met with Mr. Whipple, President, and Mr. Spinney of Whipple, Magane and Darcy, and, after discussion of the contract for revaluation of the Town of Braintree, and with advice of Town Counsel, Mr. Dace Moore, all signed the contract at 8:00 P.M.

The firm states that they will begin the work of revaluing the Town of Braintree in January 1973.

The following are the 1972 Recapitulation figures used in fixing the tax rate according to the General Laws, Chapter 59, Sections 23-25.

DEPARTMENT OF VETERANS' SERVICES

James A. C. Smith, Director

The Department of Veterans' Services operates under Chapter 115 of the General Laws of the Commonwealth as amended by Chapter 584 of the Acts of 1946.

In 1972 there were 92 new applications taken for Veterans' Benefits. This was a decrease of 23 from the 1971 figure of 115. Most of these applications were for ordinary benefits, medical care or hospitalization. There was only one strike in 1972 involving two applicants. Although unemployment was at a high level comparatively few cases remained on the rolls after receiving unemployment compensation.

A sharp increase in hospital, dental and medical costs occurred in 1972. These new rates are established by the Rate Setting Commission and are issued to the local offices of Veterans' Services by directive from the Commissioner of Veterans' Services.

There were eighty-one applications submitted to the Veterans Administration for widows' pensions, non-service connected disabilities, compensation, hospital admissions, burial allowances, educational benefits and on-the-job training, resulting in \$110,038.51 being awarded to veterans and their dependents. With the return of the Vietnam veteran, applications for educational benefits and on-the-job training have increased greatly.

The services of a Notary Public are available at this office.

GRAVES REGISTRATION

James A. C. Smith - Graves Registration Officer

During 1972 there were ninety-five veteran burials in the cemeteries of Braintree. This is an increase of thirty-two over 1971. Under Chapter 604 of the Acts of 1949, Funeral Directors are required to file an affidavit in the city or town wherein a veteran burial has taken place.

It is the duty of the Graves Registration Officer under Chapter 114, Section 46A of the General Laws of the Commonwealth, to see that all veteran graves are properly cared for.

During 1971 and the early part of 1972, the theft of bronze markers was rampant. As of now, this has stopped and it is hoped that the practice of placing markers on graves will begin again. Prior to Memorial Day a flag will be placed on the grave of every veteran.

Applications for markers which are placed on veteran graves may be obtained at the office of the Department of Veterans' Services in Town Hall. These markers are furnished by the Federal Government without charge.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

I respectfully submit the annual report as required by the General Laws, Chapter 98, Section 34.

The weighing and measuring devices in the Town were tested and sealed. Complaints of short measure were investigated and remedied. Periodic visits were made to the businesses in Town and were found to be in good order.

\$885.85 in sealing and adjusting fees were turned in to the Town Treasurer.

I wish to thank the Businessmen and Town Officials for their help and cooperation. I appreciate and thank Calvin E. Young who retired as your Sealer on June 30, 1972 for the assistance he has given to me.

REPORT OF THE CEMETERIES

John F. Leetch, Superintendent

I respectfully submit the following report as Superintendent of Cemeteries for the year ending December 31, 1972.

Town Cemeteries were cared for and maintained throughout the year.

There were fourteen Interments at Plain Street Cemetery, and four Interments and one Ashes at the Pond Street Cemetery.

The Perpetual Care Funds have increased and hope to continue adding to these Funds in the future.

I wish to thank the Cemetery Commissioners and the Cemetery lot owners for the excellent cooperation they have given me throughout the year.

REPORT OF THE TREE WARDEN

John F. Leetch, Tree Warden

I respectfully submit the following report as Tree Warden for the year ending December 31, 1972.

All work approved in the 1972 budget for General Care and Tree removal has been completed.

300 new Trees were planted throughout the Town, and 500 small Trees were planted in the Tree Bank for future planting.

In the instances of Mr. Downey and Mr. Poulos the amounts listed in the latter list represent partial releases only.

The Board wishes to recognize the valued services provided by Mr. Richard F. McDermott and Mr. Gilbert J. Corcoran who have served as Inspector-Engineer to the Planning Board. Mr. McDermott and his successor, Mr. Corcoran, were appointed by the Selectmen under the Federal Manpower Act of 1971.

The Board has received continued support from the Town Engineering Department under the direction of Charles F. MacGillivray, Town Engineer, member ex-officio.

While the Board's time has been primarily occupied with the enforcement of the Subdivision Control Law, the Board has begun to take some positive actions in the planning field as follows:

1. Complete revision of the Planning Board's Rules and Regulations.

2. Participation on the Zoning-By Law Study Committee.
3. Participation on the "Zone D" Garden Apartment Committee.
4. Participation with Mr. John L. Griffith, Planning Director, on a comparison of single family and multi-family housing and studies of low and moderate income housing.
5. Support of the Federally subsidized Flood Insurance Program recently obtained for the Town.

We hope to complete the planning tasks undertaken in 1972 and continue with others in the upcoming year.

REPORT OF THE BRAINTREE HOUSING AUTHORITY

In January 1972 the Braintree Housing Authority accepted for occupancy its first Housing for the Elderly, Project 667-1, consisting of 75 units of housing, a Community Building and an office. The cost of construction was \$1,647,066.00. The annual election of officers was held: William F. McRae was elected Chairman; William H. Dykstra, Vice-Chairman; Paul B. O'Keefe, Secretary; Marjorie L. Crispin, Treasurer; and Joseph H. Frazier, Assistant Treasurer.

The first tenants began occupancy of Project 667-1 in late January and early February, and Fred J. Findlen & Sons, Contractors, were notified to proceed with the construction of 28 more units of elderly housing and an addition to the Community Building, Project 667-2. We were notified by the State that we had been awarded \$2,200 annually under Chapter 707, Rental Assistance Program, and immediately made further efforts to obtain more funds for this program. The Authority approved the use of its Community Building for the Food Commodity Program, administered by the U.S. Department of Agriculture. The program eventually was expanded to the extent that it had to be moved to larger quarters.

In April the Authority have its approval for the Visiting Nurses Association to conduct a clinic for the elderly in the Community Building, with particular emphasis on diet and nutrition.

On May 1st, two families took occupancy of Rental Assistance units at Skyline Drive Apartments under the Chapter 707 Program. Later in the month the Authority received additional funding for this program, enabling us to accomodate nineteen more families. We held an informal Reception party on Sunday, May 7th for the tenants of Project 667-1 for the purpose of encouraging them to get together in group social activities. As a result, the Heritage Associates were formed on May 23rd. The officers elected were: Elna Hatch, President; Hazel McFarlane, Vice President; Alice Jerpi, Recording Secretary; Jo Porter, Corresponding Secretary; Henry Lavery, Treasurer; Francis LaMarine, Refreshment Chairman; and Isabel Perrault, Entertainment Chairman. Meetings are held the first and third Tuesdays of each month.

During June and July the remaining nineteen units of housing under Chapter 707, Rental Assistance Program, were occupied at Skyline Drive Apartments. On July 1st the Authority's employees joined the Town of Braintree Retirement Plan. Having received prior approval from the Board of Selectmen, the Authority applied to HUD for 150 units of Federal Leased Housing under Section 23.

The Heritage Associates held a successful Holiday Bazaar in November, enabling them to have a catered Christmas Party on December 17th.

The Authority voted to participate in the South Shore Elderly Nutrition Project. The final acceptance of Project 667-2, 28 units of elderly housing, was approved. The construction cost was \$614,000.00. Occupancy of these units began on December 1st, making a total of 103 units of Housing for the Elderly and 21 units of Low Income Housing made available during the year 1972. We requested that an article be inserted in the 1973 Town Warrant for approval of not more than 96 units of Elderly Housing, and this project will be known as 667-3.

ANNUAL REPORT ON BRAINTREE COUNCIL ON AGING

Bi-monthly meetings were held at which time discussion of various programs beneficial to Senior Citizens were discussed, an effort was made not to duplicate other services in the town. Our member Mrs. Dorothy Farnham worked hard and long to compile the brochure which has been completed and distributed to all Senior Citizens in the town. This book is entitled "Your Guide to Help and Opportunity" (Resources for Braintree Senior Citizens) and has proved to be an excellent source of valuable material. An effort has been made to establish a hot lunch program, all Senior Citizens who have shown interest by returning the survey were contacted by a follow up survey these answers has shown a need for this program.

Several Seminars with the regional Council on Aging including a three day conference on transportation was attended by our members. An effort was made to obtain funds to provide flu shots for the coming year.

Miss Goodwin of Quincy Region Area five, visited us and talked about the nutrition program.

Surveys were given to all Senior Citizens who were applying for M.B.T.A. Identification cards, in this matter eighty-two more surveys were obtained for our files.

The Council will continue to work to make a hot lunch program available to those desirous of it and also any other programs which are now in the formative stage and beneficial to the Senior Citizens.

REPORT OF THE
BRAINTREE INDUSTRIAL & BUSINESS DEVELOPMENT COMMISSION
FOR THE YEAR 1972

William G. Brooks, Chairman; William B. Webber, Secretary; John O. Holden, Treasurer; Charles R. Furlong, Peter W. Anastos, Warren J. Cuff, Assessors; Gerald J. Gray, Sewer Commission; Joseph H. Juster, Board of Health; Carl W. R. Johnson, Electric Light Commission.

1972 Braintree's Largest Tax Paying Building Permit Year in History of Town

The Braintree Industrial & Business Development Commission reports that 1972 was a record breaking year for new construction permits for taxable property. Braintree Building Inspector Joseph H. Frazier states that the estimated value of the taxpaying building permits issued by his department reached an all time high of \$14,347,133.00 or over \$5,001,198.00 more than the second highest year of this type of taxpaying property permits for the year 1967.

New building permits were issued for 58 new single homes, the second lowest in 18 years for a total of \$1,250,000.00. This amount with residential additions total \$2,072,477.00 for the year. Permits for industrial and business structures and additions amounted to \$2,480,776.00, the two hospitals \$3,750,000.00, the 1150 apartment units totaled \$4,793,000.00 and 96 condominium units \$1,152,000.00.

The 1972 season of new building construction opened with the announcement that Thomas J. Flatley, Braintree's latest multi-million dollar builder, who now has his headquarters in one of his two 4 story buildings on Wood Road, has purchased the Charter House Hotel at a cost of \$1,850,000.00. This announcement stated that \$2 Million will be spent to increase the size of the hotel from 100 rooms to 200, construct a new building in the rear to include a ballroom or banquet hall to seat 350 persons, an indoor swimming pool with sonna baths and complete exercising equipment, additional meeting rooms, an extended cocktail room and added dinning room space. The buildings are now nearly completed and the new structure is owned by Flatley but operated by the international system of Sheraton Hotels and known as the Sheraton Tara Hotel.

The Braintree Savings Bank opened its third bank structure at the Quintree Mall, Grossman's new 14 store shopping center at 426 Quincy Ave., East Braintree. This is Braintree's 10th bank distributed in the Town's 7 major shopping centers.

Construction has been completed on a new \$400,000.00 office building for the Armstrong Cork Co., Braintree's largest manufacturing plant. This is the second new building built by Armstrong in three years. The previous structure of 56,000 sq. ft. of manufacturing space and the new 2 story office building of 17,500 sq. ft. will include a data processing center and space for 100 office employees.

In the month of August one of the largest non municipal building permits in many years was issued for \$3,000,000.00 for the construction of the Braintree Hospital to Charles J. Kelly the Kelton Health Corp. The hospital is now being built on 10.5 acres of land at 250 Pond St., formerly the Zampine Farm. The 2 1/2 story building with 160 beds will include 80,000 sq. ft. of floor space and will provide more than 300 full and part time jobs with a payroll of more than \$1.5 Million. As a taxpaying institution the Town of Braintree will receive approximately \$150,000.00 annually from the institution. The new hospital will service long term patients with medical needs not

currently met either at the acute hospital level or at the nursing home extended care level. The latest of all types of hospital equipment will be included in the new hospital. The facility will provide a definite reduction in cost to the patient and to insurance companies. Mr. Kelly also owns and operates the Franvale Nursing Home nearby on Pond St.

The Hollingsworth House Rest Home is now under construction at 1120 Washington Street, the former site of the Hollingsworth Mansion recently destroyed by fire. This structure owned by Dr. & Mrs. Vincent Pattavina will be an addition to the Braintree Manor Nursing Home. The building permit is for \$750,000.00 for a 120 bed Rest Home, 56 ft. by 180 ft., 2 stories front and 3 stories rear.

Braintree has been fortunate to have several multi-million dollar builders whose major building interests or headquarters or residences are in Braintree. This fact is most important to tenants of buildings being quickly and satisfactorily serviced during their occupancy of leased buildings.

Campanelli Investment Trust, one of Braintree's largest Industrial Park owners, have completed the following projects this past year:

1. Bradlee's Stop & Shop warehouse addition of 190,000 sq. ft. consisting of a building 475 ft. by 400 ft. added to the present 245,508 sq. ft. building to make a total of 438,508 sq. ft. in the completed building on a 13 acre plot of land.

2. Office expansion at 30 Campanelli Drive 40 ft. by 50 ft. for \$30,000.00.

3. College Town building expansion of 126 ft. by 435 ft. to cost \$200,000.00.

Francis X. Messina, Braintree's largest industrial and business builder of year.

1. The 4 story F. X. Messina Enterprises Building at 420 Washington St., North Braintree is completely occupied with tenants.

2. Braintree's largest apartment complex on land formerly occupied by the East Braintree Bleachery, of the McCusker Family, is now under construction. The land formerly zoned for industry and single family homes was rezoned by Town Meeting Members to allow the construction of apartment buildings. Factory Pond as part of this area has been land filled and is in land court to decide ownership. The building permits allow construction of 376 units of apartments, a community house and swimming pool, at a cost of \$3,415,000.00.

3. Mobil Oil Station at 828 Washington St., \$32,000.00.

4. Stores or offices at 729-731 Granite St., Shell buildings \$10,000.00.

5. Former A & P Store Braintree 5 Corners convert to Summit Gift Store, \$10,000.

6. 1 story stores adjacent to old A & P Store, Braintree 5 Corners, stores removed and new 4 story stores and office building to be erected \$65,000.00.

C. Healy Co., Thomas H. Hannaford Estate

1. New Blue Hill Tennis Club Building in full operation at 290 Wood Road. Tennis courts very popular and filled to capacity at all hours.

2. New addition to tennis court building for nursery & pro. shop. \$10,000.00.

3. New warehouse building at 265 Wood Road, 70 ft. by 100 ft. \$100,000.00.

Thomas J. Flatley Corp.

1. Condominium buildings, 96 units in 12 buildings on Sunset Lake Shore. Buildings to cost \$1,510,000.00. These are Braintree's first homes of this type. The 12.85 acres of land to be built on one of Braintree's most picturesque spots is located between Sunset Lake, Pond St. and Glendale Road at a point opposite Wayne Ave. on Pond St. The land was rezoned from Residence B to Residence C at a recent Town Meeting. The four-and-a-half room apartments will sell for between \$35,000 to \$40,000. The buildings will be built in English Tudor style.

Leon P. Piatelli

Leon P. Piatelli continues his construction of 9 new 3 story apartment buildings at Skyline Drive, East Braintree, to add 96 new apartments, a swimming pool and community house at a cost of \$1,510,000.00.

The following report of the activities of the South Shore Plaza Shopping Center as presented by Paul W. Lowney, Vice President and General Manager and written by his assistant James M. Curcio.

The Winmar Company, Inc. of Seattle, Washington, owners and operators of the South Shore Plaza (SCIT Inc.) now the largest shopping center in New England, continued its expansion and modernization program in 1972.

SCIT completed construction of its 85,000 square foot New England Telephone and Telegraph Company building in February of 1972. The facility occupies 7 1/2 acres west of Cinema I and II. The new accounting-computer center has 300 employees.

Within the Plaza complex, adjacent to Cinema I & II, the Howard Johnson restaurant, Uniroyal and Boston Baby, a new road and culvert bridge system has been completed. Over \$85,000.00 was spent in this area to beautify and provide a safe exit for patrons of the theatre, restaurant, and employees of the New England Telephone building. 1973 plans indicate additional landscaping with new trees, bushes, flowers and benches.

New 1972 tenants at the South Shore Plaza include: Design Research, a fabrics home furnishing store; Panorama - a Panasonic retail store selling radios, TV's, stereos and home products; Ups & Downs - a modern youthful apparel shop specializing in women's clothing; Fanning Personnel - employment counselors, placing office personnel; Benjamin Stein - attorney, specializing in probate and taxes; Plaza Realty - residential real estate broker; Plaza Travel Tours - a subsidiary of Plaza Travel, specializing in group tours.

1973 Developments - Stop & Shop ceased operation at the South Shore Plaza, and will have in its place three specialty stores, including Herman's Sporting Goods, a subsidiary of the W. R. Grace Company, the chemical and steamship people. Herman's with 6 stores in New York, enters the New England market for the first time. It will occupy 16,500 square feet, the

major portion of the Stop & Shop mall space. Scandinavian Design Inc., 2,100 square feet, home furnishings; and The Lodge at Harvard Square, 2,400 sq. feet, youthful apparel, will occupy the remaining square footage. These stores will open between Spring and early Summer.

New Liberty Mutual Building - Just south of Boston Baby, on an acre and one half, will be the new Liberty Mutual Building. The 18,000 square foot structure will be a combination office and retail space. Liberty Mutual will occupy the entire second floor, moving its operation from the Plaza's arcade. On the first floor will be retail tenants, including the Needham National Bank, a Shawmut Associate bank. The building will be completed by September 1973.

Beyond the Liberty Mutual Building will be a new supermarket complex. The market yet to be officially named, will occupy three acres. The complex will comprise a 40,000 square foot market and several specialty stores. Opening date is scheduled for early fall.

The Plaza still has 30 acres to be developed. This land is west of the Telephone Building, going toward Five Corners. It is anticipated this area will be devoted to office space.

Citgo Office Building - Also owned and operated by SCIT, became fully leased in 1972. New Tenants filling the space vacated by Massachusetts Hospital Association are:

AVX - The corporate headquarters for this new company, is a subsidiary of the Aerovox Corporation of New Bedford. AVX manufactures and distributes ceramic components for industry.

Boston Mutual - Moved from smaller second floor space to larger first floor space to accomodate its increased business load.

Anaconda - New England sales office moved to Braintree from Chestnut Hill.

Cone Mills - One of the nation's largest textile manufacturers, now leases Boston Mutual's old space on second floor.

In 1973, Citgo gave back to SCIT approximately 4,500 square feet of space it was not using. Two new tenants will occupy the majority of this space. New England Feed formerly with offices in Boston, will occupy 1,326 square feet and Aerovox, the parent company of AVX, will have its new corporation headquarters moved from New Bedford to the Citgo Building, and will occupy 1,589 square feet.

Large areas of land, zoned for business and industry are still available in Braintree for new construction. If you have knowledge of companies wishing to establish their operations on the South Shore, be sure to contact a member of the Braintree Industrial & Business Development Commission, and they will acquaint them with all available building sites in Braintree. Commission members appreciate the splendid cooperation of Braintree citizens and officials during the past year. A listing of some of the major building areas still available for new structures, now zoned for business and industry will be found on later pages of this report.

FINANCIAL REPORTS

REPORT OF THE TOWN TREASURER
THELMA C. HEDLUND, TOWN TREASURER

In Account With
THE TOWN OF BRAINTREE

Cash Book Balance, January 1, 1972	\$ 7,853,890.55
Receipts from All Sources, 1972	<u>40,531,625.88</u>
	\$48,385,516.43
Paid on Selectmen's Warrants, 1972	\$41,928,770.41
Cash Book Balance, December 31, 1972	<u>6,456,746.02</u>
	\$48,385,516.43

The Cash Book Balance is made up of the following items:

General Town Account Balance	\$ 2,715,784.61
Water Department Balance	1,236,908.01
Electric Light Department Balance	129,134.84
Electric Light Depreciation Fund	<u>2,374,918.56</u>
	\$ 6,456,746.02

Details of receipts and expenditures are shown in the Accountant's report.

Investment of funds has earned the following interest:

Previously reported (1956-1971)	\$ 907,425.32
Earned in 1972	<u>58,661.41</u>
	\$ 966,086.73

This interest is from voluntary investment by the Treasurer of "idle funds" - taxes, bond issue money and Electric Light Depreciation funds - until they are needed. It is not to be confused with investment of trust funds. The interest so earned has paid the entire cost of funding the Treasury department since 1956 - including expenses of bond issues - with more than half a million dollars to spare.
